Thread: [Omnicoïn-qt problem](#)

mrnapolean1 - March 6, 2015, 6:38 pm

I am getting this:

[IMG]<http://i192.photobucket.com/albums/z74/mrnapolean/omcqtprob1.png>[/IMG]

I have approx 111 OMC sitting at Allcrypt exchange I want to transfer to my wallet.

How to resolve this?

I have tried:

Restarting Omnicoïn client

Restarting my Networks router

Edit your omnicoïn.conf file and add

addnode=204.44.122.123

addnode=192.99.42.164

addnode=192.99.42.206

addnode=192.99.42.238

conf file can probably be found in %appdata%

I just left it running all night.

It fixed itself at one point in the night.

But thanks for your suggestion. ?
