Thread: [Minecraft premium accounts - Autobuy - full access - unmigrated](#)

?????? - March 7, 2015, 6:28 pm

Updated 2/17/2016 selling minecraft premium accounts for \$1

Payment methods: skril/btc/csgo skins

im back in business after a long while! these accounts will give you full access, you can verify and own them by means of migrating them to a newly created mojang account. at this point you will get a name change and be the full owner. i guarantee them as well.

(contact me to pay with skril or csgo items or for bulk order discount)

So I can migrate them to my email if I am correct? And then change password, SQs, username, ect? So it basically becomes my account.

yes, once you migrate it to a mojang account (you can just create a new one) then the old login becomes completely invalid and the mojang account is used to login. then you own it

and the info on the mojang account is used.
