This is a method I've been using for a while, not unknown but it's really not abused or known by every single gamer.

What do I offer?

A: Good spreading methods for CS:Go victims mainly.

What do I give you after purchase?

A: I'll be giving you 3 different methods (one contains making a youtube video) and the files you'll need for the spreading.

Do I have a set price?

A: Depends on how many methods you'd like.

ToS: Every sale is final, no refunds and NO deal disputes if I gave you the files and explained how you'll make moves

No leaking, no sharing, don't name anything about the actual method. BTC is accepted as payment. PP can be accepted under certain circumstances

No salestrash, if you're unhappy tell me instead.

If you're willing to give a vouch copy, I'll report back on it honestly. I've had experience in CSGO spreading before.

I am very knowledgeable in spreading methods. I have gained 2k worth of items from CSGO. If you are looking for a review then I would make sure to give a detailed honest opinion. I'm interested either way, what is your price OP?
