I was asked to do a review of this product, so here it is:

I have mixed feelings regarding this product. The base method its self is a slightly public/saturated method. However the OP takes it farther and explains more about it and how to achieve more than you ever would doing that stuff without this eBook. The eBooks contains a couple methods, but they're all similar. One method in particular I have never seen before, however I am skeptical of the amount of time it would take, and the amount of money you would make.

Overall, I would rate this eBook an 8 out of 10, however if the OP keeps going more indepth with the methods and updating the eBook overtime this rating could easily become a 9 or a 10.

Anyways, vouch.

Goodluck in ur sales mate

Killian Jones - June 30, 2015, 9:24 pm

I recently bought Income Revenue and I have to say that I'm disappointed. Over PM, Chief promised me a "legendary" eBook but it was anything but. Every method in the eBook was one I had seen before in eBooks that I got for free in the Money Making section.

These methods can make you money, but you can merely Google, "Money making methods" and you will more than likely find the methods in this eBook for free somewhere.

Can not recommend to anyone.

Sorry Chief, have to make people aware and state my honest opinion.

I just follow the mentoring and set it all up, didn't think about it after that. Then all of a sudden i started earning! I've made all of this since i purchased, i haven't had a single day yet where i haven't made any money. Overall this method is EASILY a 10/10. I couldn't have asked for a more perfect ebook to purchase. I'd like to thank you Chief, thank you so much for helping newbies like myself actually make money online. Hi, i'm already a marketer and i'm banking already but i'm always open for new income sources, my concerns are:

Will this be showing me ways of how to make money, like you gather 15 ways of making money and u make a book out of it, or there's actually a constructive way to make money ? how many methods if there's more than one ? i'd like to bank \$1k/month , how much money should i invest to accelerate the method and for how long the investment should be going before i reach the goal? i'm a Muslim so is there any dealing with alcohol, casinos, buying fake reviews, nude photos or anything like that ? thank you :)

Not much support will be given with the purchase of that package. As I have to work with the other customers who've bought the higher and better packages. As they come first.

I bought this a few weeks ago, - 1 month ago Not sure exactly. Only attempted the second method, first one seemed to much of an annoyance or not worth it to me. Got an email today via the website the method uses, from a law-firm saying i have 7 days to account for all the profits i've made as well as cease-and-decist (like an Audit)

Andrew S. MacKay. / Donahuefitzgerald law firm it says.

I wouldn't recommend this to anyone, i didn't make a profit and now im getting annoying/possible real emailed letters... I'd post them here however they reveal the methods of OP's ebook and i'm not going to do that that's not okay.

Only ever bought one ebook and that was a big mistake.

1. Is this method public/findable elsewhere or did you think of it yourself
2. How much work is required per day? Not looking for get rich quick, I understand how money works
3. Investment?
4. How long will it take to start earning assuming I've followed everything correctly
5. Country/age restriction?
6. Does this involve shipping/selling/cpa + ppi etc etc

Thank you

Hey Chief, I'm seriously considering purchasing your ebook and mentoring service, however I would like to know more about it. I've been burned in the past by purchasing ebooks. I would greatly appreciate it if you could answer my questions, and make me a little more confident in your product.

Questions:

1) Does your mentoring stop with your methods, or can I ask you any questions about making money online?

2) Are your methods moral and legal?

3) Can you tell me more about the methods in your ebook and the skills required to actually profit from them?

4) When I purchase the supreme package, what is the average response time on skype or through email? Will I be able to talk to you on skype or only through text.

Hey, just have a few questions, seriously considering buying.

1. Will you actually mentor me from start to finish on everything in the ebook over Skype if I purchase the supreme package? I've bought other guides before off of people here who claim to mentor me but just ignored me after like 10 minutes when I requested.

2. How much time do I have to spend daily on this ebook?

3. How long do I have to wait before I can expect to see profit?

We will schedule a date on when we're both available so that we can start the sessions.

It depends on how much you're willing to put up my friend, but I highly recommend about 30 minutes a day

And for you to start seeing some profit, it all depends on how hard you've put the effort in my friend. Like this is why I offer the mentorship, we'll go over it together and try to maximize profits for you.

foamkiller2016 - March 22, 2016, 7:11 am

Thanks for your reply mate.

If you can guarantee that I'll make profit under your mentorship then I will be motivated to put in time and effort. The last thing I want to do is throw away \$45 and be looking for a refund off of you. Waste of my time and your time.

Let me phrase my question in another way, how soon did you start to see profit when you started off?

My customers and I started seeing profit within the first couple of hours, they made their money

back and after they got the hang of everything they started earning more throughout the mentoring session.

Great to hear, and these methods aren't hard to do and saturated/public like other methods? Nothing worse than buying an ebook that claims to be unique and revolutionary and then you see methods you've seen before in them that are hard to do and don't work.

I'll get the money together in the next couple of days to purchase the supreme package.

I'll be your mentor throughout the time and we'll work together until you're satisfied with your earnings. 15-30 minutes is more than enough time to work with per day with an autopilot method. If you put manual work into it you'll see a much more success rate than with just using it autopilot.

Someone that can be noted above wanted a refund because the method was "way too long to read".

The eBook contains about 13 pages of which we include many images to make the steps extremely easy to execute.

If you have a pre-K reading level, then I suggest you not buy this. If you are ready to make money and put in the easy work required, then purchase this system.

Hello, I have a few concerns about your product:

- How much time does it take to see some results, does it require any kind of initial investment?
- How much you'd say a newbie would make per week honestly?
- Are the methods whitehat?
- Is this related to any kind of arbitrage thing such as fiverr reselling, ebay reselling, etc?
- Is this related to CPA, AdSense, etc, etc?

I'm kind of tired wasting money on e-books for the past month so please tell me If I really commit to this program I'll actually see some results

(Dec 1, 2017 05:07 PM)CryoCodex Wrote: [\[CITE\]](#) Hello, I have a few concerns about your product:

- How much time does it take to see some results, does it require any kind of initial investment?
- How much you'd say a newbie would make per week honestly?
- Are the methods whitehat?
- Is this related to any kind of arbitrage thing such as fiverr reselling, ebay reselling, etc?
- Is this related to CPA, AdSense, etc, etc?

I'm kind of tired wasting money on e-books for the past month so please tell me If I really commit to this program I'll actually see some results

Hey I got your PM these were the Qs I asked about your product thanks in advance!

Method doesn't require any initial investments, only payment is when you pay for it.
