I think he means, how were you able to get better that quickly in web design.

There's been a lot of progress made between your first and second design.

Nice work man!

Really like the design but the flat icons dosen't seem to fit in that well :S

zetta - March 17, 2015, 10:41 am

It's alright, but the fonts are weird.

Especially the "Why us" title looks weird.

Shxtdown - March 17, 2015, 10:43 am

Pretty sure this is a .PSD and OP just changed the fonts so we couldn't reverse image search it. ?

Why does the image have a shutterstock watermark on it?
