Thread: [\[Kali/Backtrack\] Collection of Backtrack/Kali Linux training videos..](#)

-b*Pawn*Z- - March 9, 2015, 7:55 am

Below is a list of some of the instructional videos that really helped me learn Linux/Backtrack and really get into hacking.

Below is:

1. Offensive Security 101 videos + coursework
2. Video guides detailing compiling exploits manually
3. Setting up an Amazon cloud machine to bruteforce WPA keys at and extreme rate.

The Offensive Security video is slightly dated in terms of software versions but the concepts are still true and well explained. For a beginner/intermediate penetration tester this might help alot. It did me..

NOTE: I don't think I am breaking any rules posting this stuff but if I am let me know. The OffSec course is probably 5 years old but still contains very valuable information. The OffSec videos are in .swf (flash) format. Just drag them into the browser to view them.

LINKS:

1. Offensive Security

- [Part 1/3](#)

- [Part 2/3](#)

- [Part 3/3](#)

- [Coursework/Labs](#)

2. Exploit Compilation

- [Creating a Exploit](#)

3. Cloud Cracking

- [WPA2 Cracking on Cluster GPU Instance](#)

I posted this to try and give something back to the community. A friend asked me to upload this and in the process I thought why not share with everyone! ? Hope this helps someone.

Rep Points are Appreciated! ?

Clipper™ - March 9, 2015, 12:19 pm

Nice thread bro, this should be good for beginners. Surprised this hasn't had more attention to be honest, good job anyway.

-b*Pawn*Z- - March 9, 2015, 11:18 pm

Thanks for the compliment!. I was expecting a little more attention but I was generally trying to help whoever wanted it. Glad you found it useful!..

me0007 - March 10, 2015, 1:42 am

Thank you man for the sharing Regards!

adacusgaming - March 10, 2015, 4:23 am

This is great, thanks for sharing Mate

No problem guys. Glad I could help! I actually have alot more material similar to this. If people find this stuff useful I'll keep uploading it.

me0007 - March 11, 2015, 5:42 am

Mate, if you share some pdf exploits clearly tutorial how to make a pdf exploit and some other cool stuff that would be highly appreciated, as i am beginner in kali linux but i really interest to learn something new and cool stuffs. Best Regards.

I'll go through what I have and consider it. In all honestly I can't release everything I have on HFs without probably breaking some rules. I have a lot of crypter source-code that I've collected from all over the internet for the past few years. That's really the gold of my collection. I do have a collection of probably 50 more hacking videos that I'll probably upload. At least some of them..

It won't be for a few days though. I'm currently out of town and away from my main desktop.

I know I've ran across information detailing what you were describing about extension spoofing PDFs and actually getting them to beat AVS. I don't remember exactly the steps but I'll check to see if I can locate the information. If i remember correctly PDFs were somewhat tricky, though I really don't really remember why.

Glad you found it useful!

me0007 - March 24, 2015, 1:38 am

anyway thanks i am looking for your more tutorials. Best Regards.

SIM-2658032 - March 28, 2015, 10:00 am

can some one please help i recently installed kali linux using vmware but seem i forgot my login passowrd how do i reset the password without having to re install the kali

Wilvear - March 29, 2015, 9:55 am

thanks for the nice tut, I will try this tonight.

Jonetsu - March 29, 2015, 5:05 pm

This is great, thanks for sharing Mate

Kontra - March 31, 2015, 5:35 pm

Thanks for the thread man, very helpful :D

wranx - March 31, 2015, 5:42 pm

Great share man, useful information.

erudite13 - April 1, 2015, 3:02 am

"This webpage is not available"

just help me please . . .

Mangahome - April 1, 2015, 3:06 am

Thanks a ton, i preffer watching a video instead of reading an ebook and for me as a noob ill like to gather some knowledge.

-b*Pawn*Z- - April 19, 2015, 11:20 pm

Resetting a root password can be done.. Don't know the exact steps off the top of my head. Google resetting root in linux and if you get nothing there google resetting root in ubuntu or debian.

If I remember its actually very simple to do. Something like creating a new password and then salting it and then adding it to your machine's passwords.

No problem man! Glad you liked it..

gizmodo - April 19, 2015, 11:30 pm

great stuff i shall bookmark this thread. thank you!

yassin.zein - May 9, 2015, 4:50 am

good work bro..... :-) it helped me alot

Shriram - May 14, 2015, 7:43 am

Helped a Lot...

Thanx Mate

.GonZ0. - May 14, 2015, 8:26 pm

Hey really nice post. Thanks a million!

ostad_12 - May 15, 2015, 1:19 am

tanks man nic??

.Phr34K. - July 24, 2015, 7:14 am

Thanks for making the thread, helped a lot. Bookmarked! ?

gghhoosstt - August 5, 2015, 7:15 am

thank you so much bro for the share?

KnockSteadys - August 19, 2015, 10:15 pm

thanks for sharing this man this helps

Serfer - August 19, 2015, 10:20 pm

Thanks for post really helped me out

haaizze - November 30, 2015, 3:25 pm

this is awesome! nice collection

jkavdaju - November 30, 2015, 9:57 pm

This is great, thanks for sharing Mate

Massacre. - December 1, 2015, 2:05 am

Thanks for making the thread, helped a lot.

GOD OF SARADOMIN - December 1, 2015, 2:07 am

thank you that was useful ! keep HQ

Infinity. - December 1, 2015, 3:08 am

Audio quality is very bad tbh. Thanks anyways for the share, looking into your exploits folder.

NepT - December 13, 2015, 5:09 am

Thanks for Sharing man I think I can easily benefit from this

PaRaSiTe™ - December 25, 2015, 7:33 am

Thank you...!! Well appreciated...!!

? Ace of Spades ? - December 25, 2015, 8:03 am

great share mate but for more information click on my signature for jumbo information regard to this topics.

chaseboy006 - February 25, 2016, 6:52 am

thank you very much for this files...

Shadowphyre - February 25, 2016, 8:42 am

Thanks for sharing. ?

LordDragon - February 26, 2016, 4:00 pm

Nice share,thanks for giving back to the community.

FusionXPO - December 17, 2016, 10:41 am

Thanks for these videos, really helpful

Visionary2020 - December 31, 2016, 6:39 am

bruteforce, dictionary attack, phishing, (and I know phishing is ban in this forum but if you know of any other website please share with me) does anyone know which one of these tools or methods are effective and works more likely to crack Instagram's account/password. and where can I buy one of these tools or where can I download from if free? I know phishing is not allowed in HF but if you know any other website to find phishing tutorial then please respond and also I am looking for any other tools for cracking Instagram accounts/passwords. any information regards to this matter is much appreciated.

NoobyAnonymous - January 4, 2017, 6:35 am

Thank you so much! This is exactly what I was looking for))

t0msawyer - January 5, 2017, 8:37 pm

wow nice post! excelent job, thank you :D

bigmoney - January 6, 2017, 7:44 am

thank you for this
posting here to try this later

Agency.co - January 11, 2017, 6:46 pm

Thanks for this post! really useful for linux hacking

EvilL0rd - January 13, 2017, 1:33 am

Thank you brother for this tutorial. Thanks a lot
