Thread: [\[TUT\] Verify a Paypal in ANY Country!!!](#)

Ramsay448 - June 10, 2010, 9:06 am

I see a lot of People on the Forum asking "How can I Verify my UK Paypal? Not an American", so today I will answer those problems with this Simple Technique.

This will involve setting up an American Paypal though, but thats part of the Verification.

Step 1:

Visit this Thread and make a Verified Paypal Account: (No Credits go to me for this part of the Tut)

<http://www.sythe.org/showthread.php?t=638933>

Step 2:

Go to your Profile, then go to Currencies:

[img]http://img39.imageshack.us/img39/7736/paypaltut.png[/img]

Step 3:

Select GBP, then follow the Numbers 1,2,3,4,5 in order:

You now have a Verified UK Paypal Account!! ?

Hope you liked the TUT, please do not redistribute ?

You need to make an American Account, then Verify it, then follow my steps ?

2 secs, ill fix the Link ?

EDIT: Link Fixed!!

Lol...
Netspend is bs x.x

I add it onto paypal and then , i wait 5 days .
The next thing that happens is paypal sends me a e-mail stating that Metabank doesn't recognize my account xD

Anyone got a idea?

Hi shaikat11,

Perhaps i can help you. There is another way to get verified instantly but only with a US PayPal account. Please Pm me.

There is another way but i don't think that method should be released in public.

zoh - June 18, 2010, 5:19 am

nice tut, tried it out, will wait for 2-3 days

ElasticWeed - June 18, 2010, 5:35 am

Doesn't that just change the currency?
The verified person is still from USA... or?

Asesina - June 18, 2010, 7:05 am

Hi R0ll3r,

I helped shaikat11 verify his PayPal account yesterday so he's all good. I hope that you know the other method. Do you?

Grift. - June 22, 2010, 12:20 pm

It's been three days now but on my NetSpend account it says I need to verify it, I live in the UK but I had to put US details for the NetSpend card, would I still see the amounts that go into the card from PayPal?

And how long would it take?

Thanks ?

SivaKuMar - June 22, 2010, 12:34 pm

Great tutorial. Also use a Canadian paypal to hardly be limited =)

xjleex - June 24, 2010, 6:21 am

I don't believe this works anymore. You'll have to verify your credit card number that NetSpend sends you and you require a SSN (Social Security Number) for that before you can actually see the deposits on the website (According to some places online).

I've been waiting for almost a week now and there's still nothing in the Transaction History area.

r3serve - June 24, 2010, 6:31 am

I've seen this so often at HF, although it's a great tutorial. Maybe you should have posted it in the Monetizing forum.

Is this still working? Has anyone gotten this to work?

largeyes_2007 - July 9, 2010, 1:29 am

Whoa.. I tried this and still waiting for the 2 deposits to appear on my NetSpend account..

Signup Date: 7/9/2010

Verified Date: Pending

Yipee!

Xalotas - July 9, 2010, 5:25 am

Why not use a Identity faker like <http://fakerscript.x6.to> ?

That's working great:D

DiaZz - July 9, 2010, 6:23 am

I used fakenamgenerator , and I am waiting for the 2 deposits.
