Thread: [ESL One Katowice 2015 Item Drops App Method](#)

Bladee - March 12, 2015, 1:36 pm

Found a method on receiving the Item Drops you are only allowed to receive if you actually attend the event in Katowice, Poland.

This is a really nice method I found on my own and figured i'd help others out bc it gives free items. (not sure what it gives you yet, but I guess we'll see.)

Step 1: Download the ESL One Katowice 2015 App from the iOS or Android appstore.

Step 2: Download a location changer/mock app.

Step 3: Make sure your phone's location service is turned on, or GPS Locator.

Step 4: Open the location changer/mock app and navigate to Poland, go south a bit while zoomed in and find Katowice. If you continue to zoom in, there's a center circle around the middle of the city. Go West/Left on the highway of this circle until you find the road named "Sokolska." Follow down the road and look across the street from the "skwer Przyjaciol z Miskolca" park area. Directly across the street of Skolska will be the angelo hotel Katowice building. Set your location on it.

Step 5: Open the ESL One Katowice App and click on "Item Drops" at the bottom of the App. It'll begin to load your fake location and then prompt you to sign into your Steam account. Sign into your Steam and it'll then notify you that you have "checked in" to the event and they'll notify you when you've received your first free item!

I hope this has helped anyone who wanted the drops!

I can't post screenshots due to no 50 posts on this acc or upgrade. :(</3

k?'rlzm? - March 12, 2015, 1:39 pm

what types of items do you get? exactly?

Banana - March 12, 2015, 1:40 pm

Isn't this for the pins? Or just the souvenir drops?

Quest™ - March 12, 2015, 1:40 pm

Could you post the GPS coords, of the building?

Bladee - March 12, 2015, 1:40 pm

I'm not entirely sure what it's for, i think the souvenir's drop in game? I could be wrong though.

Either or, worth doing it just to do it. Might be the pins, or the souvenir cases.

Either way, you save money. :D

It's got a yellow emoticon guy with a yellow GPS.

Search either Location Mock, or Fake GPS/Fake Location, etc.

There should be one.

If it's the souvenir drops, it's useless to do this because you can get drops from just watching the twitch streams lol

yeah, but they drop with a low percentage chance lol.

there's like 500k viewers, and it only gives out like 5k per game?

I don't know how twitch stream works with the drops, but i'm sure not every viewer gets an expensive Souvenir case. lolol

How's it useless? I've watched 4 big events and I haven't got a single drop yet.

So when do we get the item(s) and how do I know I got em?

edit: this fake gps app could be pretty useful for other apps aswell.

Cyteriz - March 13, 2015, 6:56 am

Im on ios and i cant find a working app either.

myrealtagis - March 13, 2015, 8:13 am

You need to jailbreak the iOS device, otherwise nothing will work :)

DerZyM - March 13, 2015, 10:14 am

Cant get the Fake GPS app to work on bluestacks :/ Tips any1?

EDIT: Just doing it on iOS instead :)

Kapsel498 - March 13, 2015, 10:24 am

You don't even need to have a phone. Just install Virutal box, download Android 4.4-x86 ISO (for PC^^), install it and do it with instructions in 1st post.

Happeh - March 13, 2015, 11:48 am

Although I've checked in each time and the Katowice app has said everything is good but I haven't received a pin yet - do pins come after the event?

Bladee - March 13, 2015, 12:38 pm

Sorry for being late to update, apparently iOS and Bluestacks are looking incompatible with the method. iOS doesn't seem to have a location mock app and Bluestacks just won't work?

I do apologize to anyone who's had this issue, the app drops Souvenir Cases to those signed in, but they are not a guarantee, I'd assume you'd have a better chance?

Anyways, welcome to all those who said thanks, i'm glad I could help you all out.

I have yet to get a drop, but it's a pretty sick method!

New to HF, glad I could be of some help. :D

coords were directly from Google Maps, maybe search them?

Just navigate to Poland, go South, and follow the instructions when you find Katowice.

For all guys using iOS... i got a Jailbreak, and that was the only way for me to get a Location faker that actually worked - So for all guys that got a jailbreak just follow these steps:

1. go to Cydia App
2. Add Source repo.hackyouriphone.org
3. Download Fake GPS Pro (from hackyouriphone source - so its completely free)
4. enjoy :)

hope i can help some fellas out there

Gonna be honest, I think they only drop during games. So, its like. Instead of watching one game, being signed in the app makes you eligible for all games?
