Ew, bad...

Seems like a legit scam report, sad to see people refunding... :s

Seems legit, sorry for your loss op, good luck.

You might want to change your rep on him for the mean while.

Yeah really sucks, did trades with some pretty new users and had no problems there.

Updated it.

You never gave me the cash, hence why I chargebacked.

Guess that is why you thanked me in PM and repped me, even gave you 347k extra prick.

**Maaaaad** - March 13, 2015, 3:45 pm

So because I sent you a message before recieving the item, that means that I MUST of recieved it ?

Your retarded, you thanked me in PM and then said the transaction went smooth in rep. Sorry but

your story doesn't go together at all, remove the chargeback and i will close the thread.

This guy gave me -rep when i refused to sell him RS07 Gold because he seemed to be fishy as fuck and i knew he would try to scam.

**tolenaZ** - March 18, 2015, 5:09 pm

Nah still not solved and probably never will be, he won the chargeback. Just leaving the thread up so he can't rip other people off.
