Isn't like that just a panzerotti?

Either way, it looks great.

Sorta I guess. I took 2 tortilla's and put butter on one side for each as a "lube" so the tortilla wouldn't smoke up when i put it on the stove. Then when I put it on the stove, quickly put the sauce and cheese on it. and then put the other tortilla on top, and then keep flipping back and forth and enjoy :)
