Thread: [Who's good with vbnet?](#)

Sw0rd - March 14, 2015, 6:31 am

Hey,

Stuck in the middle of a project and can't work out how to do the final few functions.

It's not hard to someone who's fluent with vb net.

Pm if you can help pls :)

Thanks

What is the project about/what is it supposed to do/what does it do that it mustn't do/show some code.

Because if you're fluent with vb you'll understand?

Pm me and I will explain

Most of us here in the VB.NET section are coders, show us your code problem for help. We can't just guess your functions etc.....

Pm me and you can look over team viewer :)

I'm not on my computer right now so I'll try to explain as much as I can
