Thread: [Appraisal: Custom Iphone cases](#)

Who Soup - March 14, 2015, 3:52 pm

Just curious, would anyone be interested in custom 3d printed iphone cases? By custom I mean having your name and or an image in it ?

If so how much would you pay for it?

TheJ?Ker - March 14, 2015, 3:54 pm

I personally wouldn't pay more than 15\$ (just for the case 15\$, i would pay for shipping obviously). Nice idea!

Aliasllias - March 14, 2015, 3:56 pm

Wouldn't pay over \$15, but to be honest I would only buy it if the price is under \$10.

I think it all depends on the quality of the cases. I usually don't spend more than \$20 on a case.

I wouldn't spend more then \$10, wouldn't really use it as a case

I think the lowest I could go would be \$20 but I can make this so it's not limited to just iphone cases. I guess we'll see :P

Thank you guys for the feedback as it has greatly helped me price these cases.

to the people who appraised this item before this post please enjoy a \$2 discount on my cases that I have to offer for the lifetime of the product.

Most I would pay is \$20. There are other costs to cover.

iPhone cases sell for \$10-\$30, depends on the quality / what they look like.

PurplePunch - *March 25, 2015, 11:52 am*

I would probably not spend more than \$10-\$13.50 on a custom case.
