Thread: [>>> Adfoc Bot <<< | Make Money On Full Auto-Pilot | 100% Safe Mode \[VOUCHED\]](#)

BotMarket - March 14, 2015, 4:59 pm

Please do not expect the bot to work with overused proxies. Also the "Safe Mode" will not allow anything less than a elite proxy.
All i can do ATM is tell you my method of getting proxies. I hope to find a legit proxy provider soon.

Step 1 go to <http://geek-2-geek.com/>
Grab some proxies.

Step 2. Go to <http://checkerproxy.net/>
Check the proxies to see what ones are working. Only use High Elite proxies (Also do not use any china proxies)

Just like the adfly bot, this bot did not fail with this rating. It is very easy to find what you want, like loading in the proxies, or switching to safe mode and stuff.

Layout: 9/10

The layout is very nice in my opinion. Very simple, which makes it easy to locate everything you

need to locate. You won't have trouble finding what you need to find :)

Originality: 10/10

This is very original due to a mode called safe mode. With safe mode, it blocks adfocus from finding out you are using a bot and proxies, which is EXTREMELY helpful :)

Overall: 9/10

I really recommend purchasing this product. Especially with the awesome design and the special options :)

It really just comes down to how many proxies you can get a day. It looks like 22 proxies will get you \$0.03 so the more you have the more money you will make.

how quickly do the proxies need to be replaced though? Will it work for as long as the proxy is alive, or does it only work for a couple clicks before it needs to get replaced?

The program will only use each proxy once. The proxy must be alive or the bot will skip it and try the next proxy on the list.

That is true. But as soon as you get more link on your # link, the eCPM (\$ per 1k visitors) will be lowered. I remember getting like \$0,59 every ePCM but that wasn't with #.

Good luck with sales buddy, you're great.

No, you will not get banned long as you use High Elite proxies. The bot does have some random wait times to make it look human. Just load your proxies and click run the bot will stop when its out of proxies.

You will need good proxy n 1 click but you could get 3 clicks with the same ip then switch up the link

Using your own IP to view the ad will not get you any money they only pay once per IP. You can

use non elite proxies with the "proxy detected mode" but you can risk your account to get banned.
