Thread: [Skype ip resolver php multiple api](#)

migcabreraes - March 15, 2015, 7:09 am

Hello, I would like to make a website with which you can get the ip of a skype. I'm not good programming php. I need to join several other resolvers skype APIs to get the output.

I can make you an Client Resolver with API's.

Reply or PM me if intrested.
