Thread: [\[PS3/PS4/PC/Xbox One\] *** GRAND THEFT AUTO SERVICES *** \[CHEAP\] *** \[FAST\]](#)

Nas - March 15, 2015, 5:14 pm

I have a new partner and his name is lwasted47. I no longer deal with Ratchetbooty.

* PLEASE READ *

This service works for the Xbox One, PC, PS3 and PS4. If you would like to purchase this for the Xbox One, PC, or PS4 you MUST have a PS3 PSN Account or it will not work! So please make sure to enter that information. If you already have a PS3 account and have transferred it to another console or system in the past, our service will not work for you because you can only transfer once, so you will have to create a new account. If you have already transferred a character to PS4, PC or Xbox One in the past, then you will need to make a new account because Rockstar only allows one character transfer for each account.

If you don't own a PSN account and would like to purchase our service, you must go here:

<https://account.sonyentertainmentnetwork.com/liquid/reg/account/create-account!input.action>

and create an account. After that go to our website and choose the package you want. Make sure to purchase the \$5 tutorial completion hence we will have to do it. You only have to do this if you want your service done for the PS4, PC or Xbox One. If you've already played GTA V online on your PS3 account and finished the tutorial, you do not have to purchase it. Any existing PS4, PC and Xbox One GTA Online character and progression data will be replaced by the new modded character and progression data. You will be given the opportunity to change your character's appearance after you've transferred your character.

So, Will It Work If:

? I own a PS3 PSN account and never transferred it to another console or system.

? I transferred my GTA V character from PS3 to PS4, Xbox One, or PC in the past.

Q&A

Q: I only have GTA V on PC, can I purchase this service?

A: Yes you can. You will have to create a PSN account and purchase the tutorial completion with your package, than you will have to transfer your PSN account to your GTA V PC account. We will send a tutorial on how to do that after purchase.

Q: I just purchased right now, how long does it take for my account to be done?

A: It should be done within 48 hours of purchase. Usually sooner.

Q: Has anyone ever got banned from this????

A: As of 4/22/2015, no one has reported any bans or reset from our service.

Q: Do you guys accept BTC? I don't see that payment option on the website.

A: If you would like to purchase with BTC, contact me or my partner on HF.

Q: I already transferred my GTA V account from PS3 already, can I transfer it again?

A: No you can not. You will have to create a new PSN account or call Rockstar and tell them you transferred accidentally.

Q: Where do I create a PSN account at?

A: <https://account.sonyentertainmentnetwork.com/liquid/reg/account/create-account!input.action>

I don't think so as I don't have an Xbox let alone a jtag. There's a possibility that we could partner up with somebody that has a jtag but that's highly unlikely at the moment, but who knows.

We cannot spawn heist vehicles in your garage, it will not stick. Only players with a CFW (custom firmware) can store heist vehicles in there garage without unlocking them.

RatchetB?ooty - March 21, 2015, 1:48 pm

Hey guys. I want to clear one thing up here as we've gotten a lot of messages regarding this 'issue'. If your character has already been transferred using social club, you cannot transfer it again so if you've already done it once and you're on the PS4, you will not be able to transfer it again. You will have to make a new account.

Nas - March 22, 2015, 11:09 am

I'm now online and ready to take service. If you would like to purchase, contact me or my partner.

(Mar 23, 2015 12:08 PM)Writeur Wrote: [\[CITE\]](#) How is it possible to do this when you can't even jailbreak the PS4..

My PS3 is jailbroken, I go on your account and mod it to your liking. GTA V allows you to transfer your character from consoles (PS3 to PS4 and so forth). So you're basically transferring whatever I've set from PS3 to PS4.

Spirit Bomb - March 25, 2015, 2:41 pm

Bump for this service. They took care of me very quickly and professionally yesterday. RatchetBooty answered all my questions and was very professional. Will definitely use again in the future!

The ban rate is pretty low. ?

RatchetB?ooty - March 26, 2015, 4:20 am

Hey guys. Our GTA V recoveries will also work for the Xbox One consoles (not the 360). This is due to the fact that if you have a PSN account for the PS3 and an Xbox live account for the Xbox One you can transfer your character (from the PS3 to the Xbox One) using social club.

Koncaled™ - March 26, 2015, 4:49 am

Hey I have an Xbox account but I don't have it for the Xbox one. Is it possible you can load the game on the account and social rockstar account on it so I can transfer it to the PC version? I know it's weird but is it possible thanks !

Alright, I spoke to you earlier on skype. I found out the answer to my question lol. You are able to unlink the current social club account from your ps4. Which means I'm going to create a new account (PS3) and I will be able to transfer that to my current PS4 account without having to create a new PS4 account. It was sorta hard to word out correctly.

But all I need is your paypal information so we can begin this transaction. Sorry about all the confusion lol.

?No. The OP clearly states that if you already transferd your account the service will not go through. Also you could have asked. We have stated on the website, the thread, and in the comments that. Your carelessness does not give you a special treatment. You expect a refund just because you did not read the thread. Your feedback is not welcome here. I could have asked?

How can you ask something that was only mentions once on this thread and also was not specific at all on the thread.

You have a website? Do i care?

How can you tell people about the "issue" on a website but not on the thread.

My Carelessness? That was the most ignorant thing you could say, especially when this is a service.

If you are to stiff in the brain to realize how to properly help a customer then you have no business running this service.

Especially with the poor description that you've made.

To help everyone about to purchase.

If you already transferred your account on GTA, This service is useless to you.

Note I don't care about \$12 ?

Your pathetic, to have to not properly provide a service while taking someone money.

Would you be able to do it on pc? since you can transfer

Yes this will work for PC as long as you transfer the character from the PS3 account.

Our service works for PS3, PS4, Xbox One and PC. You can do this because you can transfer your character.

Rickyh1 - April 15, 2015, 3:16 pm

Worked as a charm on PC!!

Will recommend this service!

(Apr 15, 2015 04:17 PM)haxor24 Wrote: [\[CITE\]](#) i only have this game on pc, will it still work?

Yes it will still work. BUT you will have to create a PS3 PSN account because the recovery is done on the PS3 and you will have to transfer your character to PC from PS3 after the service is done.

Nas - April 15, 2015, 4:26 pm

This service can work for the Xbox One, PC , PS3 , and PS4.

If you would like to purchase this for the Xbox One, PC, or PS4 you MUST have a PS3 PSN Account or it will not work! So please make sure to enter that information. If you already have a PS3 account and have transferred it to another console or system in the past, our service will not work for you because you can only transfer once so you will have to result in creating a new account.

Will It Work If:

? I own a PS3 PSN account and never transferred it to another console or system.

? I transferred my GTA V character from PS3 to PS4, Xbox One, or PC in the past.

Yes it will still work. All you need is a PS3 PSN account. To sign up simply type "PSN Account Sign Up" on Google and the first result should be it.

Nas - April 15, 2015, 5:43 pm

IF YOU DON'T OWN A PSN ACCOUNT AND WOULD LIKE TO PURCHASE THE SERVICE, YOU MUST GO HERE:

https://auth.api.sonyentertainmentnetwork.com/login.jsp?service_entity=psn&request_theme=liquid
AND CREATE AN ACCOUNT. AFTER THAN GO TO OUR WEBSITE AND CHOOSE THE PACKAGE YOU WANT. MAKE SURE TO PURCHASE THE 5\$ TUTORIAL COMPLETION HENCE WE WILL HAVE TO DO IT. YOU ONLY HAVE TO DO THIS IF YOU WANT YOUR SERVICE ON PS4/XBOX ONE/PC. IF YOU ALREADY PLAYED GTA V ONLINE ON YOUR PS3 ACCOUNT AND FINNISHED THE TUTORIAL, YOU DO NOT HAVE TO PURCHASE IT.

I think I have an idea of how you guys did this but I'm very glad I purchased this service instead of trying to do it myself! Don't hesitate to buy this service; it will make the game much more fun again just like it did when you bought it. Put me down for a double vouch as I purchased this for two different accounts. You will be given the opportunity to change your character's appearance after you've transferred your character.

Perhaps you guys could charge like \$10 to make a new account, it takes quiet time and making it via the website you'll need to put the information in manually, if they don't do that you'll be prompted to put address on PS3.

Service ended up being worthless after an error on rockstars servers. Even though I haven't been able to play I can vouch for them having excellent customer service and they're very quick to complete an order.

Black screen error after transfer? Message me with your PayPal name and I'll refund you. Sorry to see that. Not our fault that this has happened but since you don't get to take advantage of our service, I'll refund you ?

Just a quick question. I need a PSN account but does that account need gta 5 purchased on it? or can I just make a brand new one and we do it that way? also can I get banned (note wanting this for PC)

EVOLVE - April 22, 2015, 9:26 pm

Will you email me when the service is complete?

You can make a new PSN account, that account does not need GTA V played nor downloaded on it. Also, not one person has gotten banned from using our service

Once your order is complete we will either email you or PM you on here if you've provided your HF UID.

If you would like to purchase this for the Xbox One, PC, or PS4 you MUST have a PS3 PSN Account or it will not work! So please make sure to enter that information. If you already have a PS3 account and have transferred it to another console or system in the past, our service will not work for you because you can only transfer once, so you will have to create a new account. If you have

already transferred a character to PS4, PC or Xbox One in the past, then you will need to make a new account because Rockstar only allows one character transfer for each account.

If you don't own a PSN account and would like to purchase our service, you must go here:

<https://account.sonyentertainmentnetwork...put.action>

and create an account. After that go to our website and choose the package you want. Make sure to purchase the \$5 tutorial completion hence we will have to do it. You only have to do this if you want your service done for the PS4, PC or Xbox One. If you've already played GTA V online on your PS3 account and finished the tutorial, you do not have to purchase it. Any existing PS4, PC and Xbox One GTA Online character and progression data will be replaced by the new modded character and progression data. You will be given the opportunity to change your character's appearance after you've transferred your character. Got it, sorry.

Will order now :)

Edit:

Order Done, waiting for future instructions.. :)
