If you are scared of the 1/57 don't download it or be smart and run it in sandboxie like you should with any software you download on the internet.

If you enjoy the software all i ask is a simple thank you on the thread to keep it alive for everyone to use.

Thanks ?

Sweet giveaway! I'm so happy that you are giving this away for free, as I'm currently using this to get all of my proxies.

I heard this also includes a method to get free proxies. - Are they elite/good for cracking?
