I didn't wanna put 5,000 too expensive because people are most likely gonna try that first one to see if i'm legit. Any suggestions? I will consider.

He meant that your "discounts" are fucked up.
For 5000 hits, it's 0.1\$/1000 views.
For 20,000 hits, it's 0.4\$/1000 views.

So, what should i put my prices at?

I'm just saying it's pretty retarded to buy the big package when you lose on your "discounts".

Your discount still makes no sense with being updated..

Might as well not put the 10k hits, as it's same price as doubling the 5k.

"Buy this for \$1.25"

"Buy 2x this for \$2.50"

1.25
+ 1.25 +

2.50

Make it to where when they buy the 2x, they actually get a better deal.. "Buy this bigger package

and get \$00.30 off!" or something. Make it appealing to them to get a bigger package!
