Matching Up

For the first round, you will get matched up with people of YOUR division. After this is over you will move on with the just higher one.

Games' Procedure

After organizing the games and matching up all participants, You will be asked to check in before your arranged match into a skype group with the current online helper and your opponent and proceed into the game.

The game will be a custom game created by the helper with capacity of 3 people.

Helper will randomly join one of the two participants' side. Once the game starts, helper will remain to base, WITHOUT buying items, chatting, using abilities, dancing or laughing. He will be ALLOWED to say "3,2,1. Go!" On start of each game, and Declare the winner at the end. The helper MUST take a screenshot of the result in the lobby screen after the match ends.

Disturbing actions by the helpers may be reported to me with proof.
