You would have a hard task using most of them, as they are infamous/ way to professional/unbelievable, appreciate the share but you need genuine girls. Not massive boobed late 20 something. It just doesn't word with the skeptical nature of the target audience.

I don't agree. Most of these images are in fact very believable, specially with horny guys; no fake boobed pornstars here. All of them are girls with phone-picture (with mirrors) / in their room. But yeah I put the sexiest ones in the previews, but I'll add some (even) more 'believable' ones.

Thanks for your feedback :D

Erudite - June 11, 2010, 11:20 am

No problem not trying to be harsh but the majority, just don't look feasible.... If they are too decent looking it arouses the question in most, why are you on this chatroom? And given that I have seen several of those in other packs, they have been touted way too much making them hard to use. However maybe for some newbies it was a good share personally I won't be using

Trust me, horny men in chatrooms don't think like that.

Erudite - June 11, 2010, 11:24 am

Dude, I sure I have been a lot more successful and more experienced at social engineering guys... Check my tutorial, don't talk to me as i'm a skiddie who doesn't understand their behavioural habits. Yes if you are after nothing, maybe they will accept its you. But if your looking for 50-60 pounds like I do , I can assure you a majority of them photos are useless.. for MORE experienced social engineerers...

BigG - June 11, 2010, 11:30 am

I have added a "+trustworthy" category.

Agree- they appear to be very 'amateur' photographs :) and older women sometimes get bored and go on chatrooms and so on ? I think.. do they??

Try using a different previewer. I don't know.. the problem is on your side.

What are you using to view them? And how is it possible only half of them to work?

Stop asking me. I don't know. You're obviously doing something wrong.

Maybe you have some kind of bug in your accosiated files with the previewer. I'm not sure.. they work for everyone else including me.

Ill give these a try on aim and see how many infections i can get, i prefer aim over torrents since like 99% of all people on aim have webcams and look like complete pedophiles.
