Thread: [\[Q\]How to create your own Skype resolver API?](#)

IMAGINARY666 - March 27, 2015, 4:12 am

I couldn't find a way to create my own API, so I'm asking you... Which are the required steps to create our own API?

IMAGINARY666 - March 28, 2015, 2:23 pm

No information about this topic guys??? :(

insider22 - March 28, 2015, 2:41 pm

I could use a skype AutoResponder, definitely PM me if anyone finds something

IMAGINARY666 - April 2, 2015, 2:23 pm

C'mon guys, share your knowledge!!!

System32 - April 2, 2015, 7:19 pm

i would recommenced just finding some a C++ script and then copy and paste it into a ide or what ever you use for C++ then go through it and just figure out how it works, make sure to get a simple script just a simple API that is only a resolver

There are plenty of tutorials on how to make one google is your friend but if you honestly can't find one feel free to PM me

Chiefcom - May 16, 2015, 2:00 am

OP did you find a solution to this?

(Apr 3, 2015 10:56 AM)?nime Wrote: [\[CITE\]](#) There are plenty of tutorials on how to make one google is your friend but if you honestly can't find one feel free to PM me
Do you have any tutorials or guides that you can direct me to?
