Hey guys :)

I became intrested in Bitcoins (just 2 days ago) when I found out that this is the only way I can get 3P1C , L33t or Ub3r from my country.

I came to this part of the forum to find a tut for complete n00bs because I knew absolutely nothing about Bitcoins.

There was nothing for beginners.

Only tutorial threads like "How to buy Bitcoin with PayPal". But I didn't even know exactly what a Bitcoin was. ???

So I went to YouTube and did some research.

I learned a lot about Bitcoins in just 2 days.

I'm sure there's much more to learn , but I decided to post all the useful links here so there's no need for any other newbie to spend so much time serching ?

Here's some short basic videos :

"What is Bitcoin?" from <http://www.weusecoins.com> :

Okay , that's the most useful stuff I've found on my own.
I'm gonna stick to the HF tuts now , it was fun :)

You can post anything else you find useful here ?

Let's keep this thread alive for the newcomers!

Thank you for reading ?
