Which Sector are you applying for : [XB1 or PS4 or Both]

XB1

Do you consider yourself mature : [Y/N]

Of course.

How many hours a day do you game :

4 hours after work, when off work, I play 7ish maybe more depending what plans I have.

What games do you play & which games do you play most :

I tend to try and play various of games. At the minute I am playing GTA V trying to level up my account and try out the new heists. On the side theres FIFA 15 which I can't get enough of, even though it is frustrating 99.99% of the time. Theres Halo MCC; when it works. Just downloaded the Smite beta too which I am trying to get the hang of. Theres a few more but not played that often.

Are you able to capture gameplay or video edit :

I sure am. I record my gameplay daily.

What do you expect from Fortune Gaming :

A well organised set of people who are all passionate about gaming. A group of people who are there to play new games, master their favourites which enjoying it in the process.

What can you contribute to Fortune Gaming :

A level headed, passionate gamer. I'm the kind of person who loves gaming, loves winning but only if everyone else is enjoying it. I like expanding my knowledge on new and old games. FPS and sport games are my comfort zones but would love to step out of there and play games I wouldn't normally play.

Anything Else :

Only you decide if I am worthy to join Fortune; but I feel like you should accept me because I have always been passionate about games, and gaming in general and would thrive off being in a group revolved around that. I've been waiting for your sector to open recruitment so I could have an opportunity to show you guys my abilities.

Juicy - March 29, 2015, 1:55 pm

Orchid, what the fuck are you talking about...
Don't you see people selling things gaming related?
Ex: League of legends boosts, accounts, etc.

Just because you don't like this group doesn't mean that you have to make yourself look like an idiot.

Legion - March 29, 2015, 2:25 pm

Which Sector are you applying for : [XB1 or PS4 or Both] I actually have both consoles but I'll be applying for the XB1.

Do you consider yourself mature : [Y/N] Yes

How many hours a day do you game : It really depends, I do try to game as much as possible however this isn't possible alot of the time due to school work. I'd say 1-2 hours a day would be a solid number though.

What games do you play & which games do you play most : CoD AW / Destiny / GTA / Currently saving to buy Hardline.

Are you able to capture gameplay or video edit : I have a hauppauge HD-PVR so I can record gameplay.

What do you expect from Fortune Gaming : People to play with who are not just going to run to the dash anytime we're starting to get beat in a game. Also mature people who won't just talk trash to people most of the time, people who don't rage down their mics.

What can you contribute to Fortune Gaming : I was a member in a clan back in the 360 days for over a year and a half, so I do know how to avoid the arguments that prevent people from gaming together. I am also dedicated to gaming and I'm not the type of person that's going to give up when we start to lose a game together, along side the ability to play for hours at a time is a good combination.

Anything Else : I've got more games than I listed above but I don't play them as much. I've also played with a few HF members in games like CoD AW.

Actually, I do exactly what you just said haha.

My method of money is 200% afk, make enough for a living and for all the video games I need.

Thats the life. :3

lean - March 29, 2015, 2:25 pm

Damn Fortune is such a nice group wish they had a PC on their gaming sector

NotUsingAnymore - March 29, 2015, 2:37 pm

Which Sector are you applying for :

Playstation 4 (I will not get an Xbox One until later this year) - I do still play on Playstation 3 from time to time though

I can see you added PC, so I would just mention that I play games just as much or actually more on PC than console.

Do you consider yourself mature :
Yes.

How many hours a day do you game :
Anywhere between 2-8. Rare occasions longer.

What games do you play & which games do you play most :

This is a question that is hard to answer. I play games that I feel like playing. So one day it may be one game another day it's another game. Anyway to list some of the games:

Bound by Flame - Just beat it yesterday, may take another play through

Murdered Souls Suspect - Started it today (EDIT: Just beat that one)

Diablo III Ultimate Evil Edition - Playing this from time to time.

Call of Duty Advanced Warfare - Played it a couple days ago.

Don't Starve - A fun game to play from time to time.

Dragon Ball Xenoverse - Great fighting game. Waiting for the new Naruto game to come to PS4.

Grand Theft Auto V - Of course...

Anyway I own a lot more games than these, basically all the PS4 games that has been on PS+, as well as the games EA gave last December. And the games I have bought, as well as I am going to buy some more games here next week, Bloodborne among them, as well as some games on PSN store because of sale.

On PC it's games like Counter Strike Global Offensive, Indie titles, and general different games, there isn't any other specific game than Counter Strike on there..

Are you able to capture gameplay or video edit :

Both. Considered the Playstation 4 has the in build recording feature. The last 15 minutes can be saved. Then Shareplay to edit.

OR I can use my Roxio Game Capture HD Pro. However I am mainly using this for my Playstation 3

What do you expect from Fortune Gaming :

I expect you guys to be gamers. Not some people who claims to be but in reality are not. Gaming comes in all shapes so I am not saying who are and who aren't gamers.

I expect there to be some game "events" and game discussions going on in the group. Else I will just use the gaming tab. This needs to exceed beyond the gaming tab.

What can you contribute to Fortune Gaming :

What can people actually bring to a gaming division? Not much. They can bring their own playing style and gaming knowledge as well as experience.

My gaming experience is 15+ years (I am 21, I will not claim I played games before I could walk) - I have played on the Playstation systems for a very long time. Beside that I play a lot of games on PC as well.

I like Singleplayer games a lot. However I do also play multiplayer often. It really depends on who I play with, there are tons of morons, however there are also a lot of great people.

Anything Else :

What should there be? Any questions, just PM me.
The Edit was to put in some PC info.

Which sector are you applying for : Xbox One

Do you consider yourself mature : Yes by far, I consider myself more mature than a majority of the daily users on Xbox One.

How many hours a day do you game : Depending on the day and how busy I am. Good days I'd say around 6-7 hours, busy days around 3 hours.

What games do you play & which games do you play most : I play all types of games, pretty much every game that's out on the Xbox One. My by far favorite games would have to be the following ..

Call of Duty: Advanced Warfare
NBA 2K15
Grand Theft Auto 5

Are you able to capture gameplay or video edit : I am able to do both, I actually have a youtube channel that I use to upload modding videos too. I have around 200 subscribers, and over 10,000 views on one video.

What do you expect from Fortune Gaming : Lots of elegant players to play with, and have some fun with online.

What can you contribute to Fortune Gaming : I can spread my skills to the group, and make some new friends. Overall my goal is to become successful in this group, and have a great time.

Anything Else : If you would like to know anything else simply hit me up with a Private Message.

Which Sector are you applying for : [XB1 or PS4 or Both]
XB1

Do you consider yourself mature : [Y/N]
Yes

How many hours a day do you game :
5+, depending on my schedule.

What games do you play & which games do you play most :

Assassin's Creed Unity & Blackflag, GTA V, Battlefield 4, Dragon Age: Inquisition, Forza, Minecraft, FarCry 4, & I'll most likely be grinding Neverwinter when it releases tomorrow! I mostly play GTA V, Minecraft & FarCry 4.

I'm not a mainstream gamer, my genre of games isn't all focused around FPS.

Most gamers on HF prefer FPS; i.e Call of Duty. I'm different, my collection is expanded and I'm down to play anything.

Are you able to capture gameplay or video edit :

I currently cannot record gameplay, sadly because I don't own an Elgato anymore.

But I can definitely edit, I'm quite experienced with Sony Vegas.

What do you expect from Fortune Gaming :

An well-organized sector that is active.

I'd like to see a variety of gamers that are competitive, and open to play different games.

What can you contribute to Fortune Gaming :

An additional gamer that is passionate about gaming.

One that doesn't quit when isn't satisfied.

Being active when needed, and constantly looking for ways to improve our sector as a group.

Anything Else :

I'm an openly homosexual, and yes my voice is feminine.

I also play with [Dorrance](#) quite a bit. I believe he's a member of Fortune.

Previously, I was a member of Botherhood gaming sector, I went inactive for a bit so I was removed. I'm here now though, no more inactivity.

Which Sector are you applying for : [XB1 or PS4 or Both]

PS4

Do you consider yourself mature : [Y/N]

Yes

How many hours a day do you game :

I'd say about two or three, it used to be more. (And can be, very easily. I just need a community to play with)

What games do you play & which games do you play most :

I play Destiny, GTA V and FarCry 4. I'm most active on GTA V, and play Destiny a decent amount.

Are you able to capture gameplay or video edit :

I can capture whatever I need to with the built in capabilities in the console, albeit how limited it is.

I'm decent at video editing, and can get bulk cutting and snipping work done.

What do you expect from Fortune Gaming :

A community that's fun to play games with, and converse with others who share my passion in gaming.

What can you contribute to Fortune Gaming :

I can be a player in any tournaments or group sessions and help with the aforementioned PC division. I could help with any video editing that would need to be done as well.

Anything Else :

I'm not the biggest console gamer, but I'd love to hop on my PS4 and play with the group if I were to be accepted. I've got a few thousand hours on console games, if I were to estimate. I mentioned above about the PC division. I'd absolutely love to be an active member &/or help to organize or do whatever is needed if it was created. I'm most active on the PC, and would dedicate a lot of my free-time to Fortune Gaming. I'm very well acquainted with PC gaming, and have over 15,000 hours in total over my steam accounts.

Here's a [video](#) of me playing a round in CSS. I thought this would be worthy to add due to the video editing portion, as well as my ties/skills on PC gaming.

Which Sector are you applying for:

PC - Maybe Xbox or PS4 in the future, still deciding which to get.

Do you consider yourself mature:

Yes.

How many hours a day do you game:

It's pretty much all I do. I only have to work about 15 minutes a day, the rest I spend playing games and lurking around HF.

What games do you play & which games do you play most:

Everything. My steam library is currently sitting at 565 573 games and growing. I'm currently building a new PC to get ready for the GTA 5 launch (although I think I'll be a bit late..). Lately I've mostly been playing Guild Wars 2. Picked it up last sale and haven't put it down. Other top games would include Arma 3, DayZ SA, and Payday 2.

Are you able to capture gameplay or video edit:

Yep! Depending on what game I'm playing I like to stream at times. Waiting on the new build so I can get back to it.. this one has some trouble trying to stream and run a game at the same time.

What do you expect from Fortune Gaming:

I'm hoping to find some like-minded individuals who like to play the same games I do. Guild Wars and GTA is fun, but it would be a lot better with teammates!

What can you contribute to Fortune Gaming:

Probably the best contributions I would be able to make is giveaways every now and then. I buy a lot of bundles and always have leftovers. I believe I'm a solid teammate.. I'm always online and always down to play something!

Anything Else:

I hope you consider me, I think I would make a good addition to the group. Feel free to add me on steam: <http://steamcommunity.com/id/Naut138/> ?

I'm going to assume you're not implying you can't do both at the literal same time, so I'm going to assume you're making an equally moronic statement by saying you can only have one priority, or rather, you can only focus on or do one thing at a time.

Are you able to capture or edit video?I'm able to both capture and edit videos of my gameplay, don't worry about that.

What do you expect from Fortune? I expect to make some new friends who are sharing the same interests with me, learn new stuff and always being able to find a duo partner for any game. :)

What can you contribute to the group? Well, I can bring happiness into the group :3. I am also very good graphic designer (you can check my shop in the signature) and offer discount to all Fortune members. I'll also open a few giveaways in Fortune's honor.

I have a low tolerance for what I call Pro Hoes, though. Basically the types who just suck up to the good players to try & get a free ride. I've earned all my ranks legitimately & don't want to surround myself with these low quality/cancerous type players who have no intentions of improving at not only video games but all hobbies & interests in their lives.

And if for whatever reason anyone cares, I'm currently ["the fastest typist on all of HF"](#). heh.

Do you consider yourself mature: Yes
How many hours a day do you game: 2/3hrs on a workday.
Anywhere from 4-8+ hrs on weekends and days I do not have any IRL priorities.
What games do you play & which games do you play most:
(in order)Call of Duty: Advanced Warfare (2)
Destiny (1)

Dragon Age: Inquisition (3)

Need for Speed Rivals (rarely, if ever anymore)

Are you able to capture gameplay or video edit:

I'm not very experienced in video editing nor do I have the software or hardware, but I do livestream on Twitch directly from the One.

I'll stream anything from AW Ranked Play/Zombies to Destiny Raids/Crucible.

What do you expect from Fortune Gaming:

-Many Game Nights; not a once-a-month event, then never playing with each other until the next Game Night.

-Meeting those of Fortune who are interested in playing the same games I do.

-Being able to socialize with others who enjoy gaming as much as I do, and also just getting to know everyone in the group.

What can you contribute to Fortune Gaming:

A competitive edge, as well as a relaxed and enjoyable time gaming and shooting the breeze. I like playing difficult gameplay, and competitive events, but it doesn't mean everything to me.

I like leisure play just as much, but also know when there's no time for games and screwing off.

I can stream our events to my Twitch, and also host raid nights on Destiny as well.

I have all of the gear and weapons for Destiny, as well as countless Raid completions on my 32 hunter, and both 32 Warlocks.

I've played the game for about 800+ hours and know the ins and outs like the back of my hand;

I'm willing to lend assistance in the game whether it be help getting through a Nightfall or Raid, or if it's just a question a new Destiny player has.

Most likely if you ask me something about the gameplay of Destiny, I will know the answer.

As for Advanced Warfare, I'm a fairly decent player. I will play anything from Most Pit Pubs, to Ranked Play and Zombies.

Whatever it may be, just let me know and I'll be there.

Anything Else:

I'm a dedicated gamer, and hope I get the privilege and opportunity to present myself as one to the Fortune Gaming Sector.

Do you consider yourself mature:

Yes

How many hours a day do you game:

3/4 hours when I work (Which is only weekends)

Anywhere from 4 hours to all day on my days off.

What games do you play & which games do you play most:

(in order)1 - Destiny

2 - NHL 15

3 - Forza Horizon 2

4 - Diablo III

5 - Advanced Warfare (Do Not Own Getting Soon Hopefully)

Are you able to capture gameplay or video edit:

As for game capture, yes Both direct link from Xbone or my HDpvr. As for editing, I've tried but its not really my thing Plus I don't really have a good rig set-up to do editing it sometimes lags and makes an edit almost impossible.

What do you expect from Fortune Gaming:

A group built on teamwork, nothing wins games more then working as a team to accomplish a set goal. I would like to see gaming nights or meet-ups where people could chill and talk and play games. As a competitive player I'd like to see a roster for certain games or a game battles team of some sort. Would be a cool touch if not already implemented.

What can you contribute to Fortune Gaming:

As a former MLG player for a small team out of my home town, I can bring a competitive aspect, I love gaming and anything to do with gaming. I'm usually always on so its not hard to get a hold of me. I am a mature and well mannered person and a team player. I also find myself to have a funny personality. And nothing makes a game better then a few laughs along the way!

Anything Else:

As a fairly active member of HF, along with my console of choice I am always able to be reached. Whether that being just to play a game or talk about an issue. I am dedicated to playing as a team and I find I work better with a team then I do solo. I have a great personality and I think I would make a great addition to the team!

I didn't want to sugar coat my app and I felt by showing my true capabilities it would make your decision a little easier.

Which Sector are you applying for :

I'm a strong PC gamer coming from the roots of console gaming. I've been playing video games since I was around 4 on my Super Nintendo. Ever since then it's been what I do to waste all my time. But after 19 years I've figured out my destiny is for sure PC gaming.

Do you consider yourself mature :

I would say I'm a very mature person. Seeing as that I have a full time job where I have to deal with customers all day really creates a thought in your brain that shows you how to gain patience and maturity. I'm never flaming teammates in game or get PJSalt so that's not an issue.

How many hours a day do you game :

This is almost embarrassing to admit but around 10+ hours a day. I don't really enjoy being social IRL too much but I'm a huge fan of online gaming. I have a close group of friends that I game with pretty much everyday and we all hop on TS3 and just chill and play games.

What games do you play & which games do you play most :

I play soooo many PC games it'd be basically impossible to crack down on a list, but I'll name some of my top played/favorite games.

- > CS:GO
- > League of Legends
- > TF2
- > H1Z1
- > GTA5 (for PC, fuck ya)
- > HearthStone
- > Portal 2

That's just to name my favorite games overall. I believe my most played game has to be LoL. I have around 120 days played on there, forever will be my favorite PC game.

Are you able to capture gameplay or video edit :

I for sure am. I actually have a YouTube channel that, sadly, is a Minecraft channel. Back when I was about 16 I was pretty "famous" in the Minecraft scene on Instagram. I had around 57k followers on there which I then translated into like 4 YT channels and ended with this one:

<https://www.youtube.com/user/WarpifyPVP>

I can for sure still record and maybe create a new channel not surrounded around MC. Also, yes I can record at a solid 1080p and 60+ FPS. I'm pretty good at using Sony Vegas Pro as well. There's some videos that show "some" editing skills.

What do you expect from Fortune Gaming :

I've heard awesome things about this group. I really just expect to make an amazing group of new friends and spend some time learning new games and helping others out in games I may be more experienced in. There's honestly nothing I love more than making new friends that have the EXACT same interests in you.

What can you contribute to Fortune Gaming :

I would be able to provide whatever is needed. I can host an official TeamSpeak server if need be. I can host giveaways, help create new opportunities for members, record anything you need me to record, just around anything. I can also make sure the members on FG is happy. I'll help with whatever is needed, whenever it's needed.

Anything Else :

I just want to give a little info about my self here I guess. My name is Jake, I'm 19 years old, a computer science major drop out that now landed a job at an App Developing company that just reached 1 billion dollars in sales. Ever since I was little I've been playing video games. As I said before I was around 4 years old when I went to my cousins house in the middle of no where and he had a Super Nintendo with 2 games, Super Mario World and Donkey Kong Country. I literally went over to their house everyday to just to play the console with my cousins and eventually my mom/dad caved in and bought me my own Nintendo 64 when it released. They bought me Mario 64 and DK64, with no surprise there. Ever since that day, I've never looked back and have been heavily gaming since then. When I was around 12 I was super into COD4, which is the only good COD imo, and won multiple tourneys around my area and from then on I knew I liked competitive games way more than single player adventures. Another really competitive game I play now is CS:GO, which somehow I've gotten pretty good at. I'm ranked MG2 on two accounts and love playing with others and helping them understand the way to play the best strategy/fps game ever made.

My parents divorced when I was 11 and at the time I thought I really didn't care but later realized when I matured up a bit, it hit me how hard it hurt. I realized that since they divorced, it made me a way more introversive and shy. I really didn't feel like talking to anyone IRL so I locked myself away and played video games all day. They made me feel... better. Like I was happy even though something terrible happened. Video games are one of the sole reasons I can live with depression to this day and I can't thank the developers/online friends enough for this.

Lastly I'll leave you with this:

This is me with 1 of my tattoos. It's a cartoon, hand drawn, Boo from Mario since he was my favorite sprite/enemy when I was a kid. Thanks for reading and giving me a chance. Can't wait to hear back from you guys, and have an awesome day!
