The Red Lions is nokia2mon2's special group that he controls. The group was formed as a result of multiple significant donations made by nokia2mon2. He has donated over \$10,000 in the name of the group, and has his own award, the Heart of a Lion. The most recent of which prompted Omniscient to add a drop shadow to the usernames of members of the group. The Red Lions and the Reviewers are the only usergroups to have a special username effect. Before the introduction of Omniscient's Deal Dispute Database, the group was in charge of the Red Lions Scammer Database, a list of user-submitted scammers on the forum.

The group was formed in January of 2011 under the sole leadership of nokia2mon2. Many donations have been made in the name of the group, and over 100 member upgrades have been made in the name of the group to date. For a while, two members spearheaded leadership within the group and that of the Black Knights, H??????a X™ and Wolves (nokia2mon2 was inactive.) Eventually, Wolves resigned from leadership as did H??????a X™. Leadership of the group was passed onto Glassy and Morchid. Morchid's account was closed and his leadership removed after a dispute with a staff member. Today, the group is lead the group in tandem.

This thread has been switched around too much, it's getting redundant and annoying. Find someone that doesn't plan on leaving and give it to them. Hell, I'll do it myself next time and never change it

I'm not leaving anytime soon, but I do agree with you.

D3xus has had it twice, Acroz had it once, Nobility had it Once, and now there's me. Wouldn't be moved around so many times if D3xus didn't leave and come back so many times. ?

Ideally, I think this could be replaced with something on the Wiki once other things get implemented on there such as infoboxes. Right now doesn't seem like the time for that just yet though.
