Extremely glad we launched this new sector, cant wait to see what becomes of it!

Tabz - March 31, 2015, 1:13 pm

Age: 15

Experience: I have had about 2 years in experience with Graphics Designing. I also goto a school program called edison, which i take graphics design classes and work doing graphics designing.

Software's: photoshop, cinema 4d, adobe illustrator, and adobe aftereffects (for some gifs)

Field: Graphics Design

Reason and purpose to why you should join: Well, i'm not the best person in the world at graphics design, but i love doing it, and i would love to be in a hackforums group based on what i love doing. To talk to the other graphic designers that get accepted and get their opinion on my future works, maybe even have a battle in graphics ?

Any professional certificates: No, not at the moment but i may Major in graphics design once i graduate.

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Age: 17

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Experience: 5 Years, maybe longer. I started before secondary school just using templates to practice.

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Software's: Sew Art, Manga Studio, Cinema 4D, Photoshop and Illustrator

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Field: Comic Designs, Illustrations and General Designs (Logos, Banners etc)

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Reason and purpose to why you should join: I've been doing graphic design for many years and it

all started when I learnt how to use Cinema 4D and I started designing simple things and then when I went to Secondary School, I took Graphic Design for a GCSE and passed but decided to not take it for A Level and just do it outside of college and design for my Mothers business in embroidery. So therefore I think I would be good in the group because I can teach people new things within the areas I know and also learn how to use different software's and how to do new things all around.

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Any professional certificates: I have a GCSE in Graphic Design on my Curriculum Vitae.

Age: 18

Experience: 5-6 Years

Softwares: PhotoShop, Gimp, Illustrator, Cinema 4D, After Effects, BootStrap

Field: Graphic Design / Will extend my Skills into Web Design & Motion Design

Reason and Purpose why you should join: I'm a very dedicated Designer & Member on HackForums. Doing Graphics Design is my passion and I've learned it myself starting when I was 13. When I completed my Exams and pre-study I started doing a Study to be an Interactive Graphics / Web Designer.

I run a Graphics Shop on HackForums and have been gaining a lot of feedback & respect from Member ever since.

My Graphics Shop: <https://hackforums.net/showthread.php?tid=4232227>

I've planned on doing this for atleast 4 more years till my Study is completed, I'm actually thinking I'll keep doing Freelance work on HackForums even after I got a job into it, just because I really enjoy it.

Frivolity - April 1, 2015, 6:07 pm

Age:

16

Experience:

I've been doing graphics for many years now.

It started out with me entering a contest. I wasn't the best, but I wasn't the worst either. When I got so much positive feedback on my first piece of art, I was instantly hooked.

I kept growing by making logos for me and my buddies projects, desktop wallpapers for myself and so on. Later on I decided to make some money out of it, so I made a graphics shop.

This was the first time I started making money online. During my time selling graphics, I never received ANY negative feedback, and I guess that's what kept me going.

Other projects caused me to close the graphics shop, as I didn't have time to complete all the requests and at the same time maintain a successful product

Software's:

Photoshop

Field:

I mostly focus on flat and material design these days.

Reason and purpose to why you should join:

I like discussions about graphics, and I wanna be a part of a group where individuals can share their techniques, experience and many other things.

Any professional certificates:
I'm self-taught.

[img]http://i5.minus.com/ib1esUob9rcOIL.png[/img]

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Age: I'm 23 years old.

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Experience: I'm learning graphic design since I was 15 years old (that's when I first found out about Photoshop and started using it on daily basis)

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Software's: Photoshop CC, Illustrator CC, Corel Draw X6 and rarely Xara Designer software.

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Field: Logos, branding, thread designs & WEB designs.

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Reason and purpose to why you should join: Alright, so I was looking at the groups who are recruiting graphic designers for a long time now and this is finally my chance. I want to join Fortune because it seems like a HQ group with dedicated leader despite the current drama that's going on. I think my skill would contribute A LOT to the group and members of it, you're probably wondering how. Well, I'm currently fairly active in Free Graphics Section providing free HQ graphics for people daily and helping them with their project and I'm planning to expand this actions to the groups, meaning that I will offer free graphics for any member who's inside Fortune. I'm active on forums and I don't think you will have a problem with me being inactive for some reason. Plus, I can also mentor people inside the group on how to create eye catching designs (thread layouts, avatars, signatures etc.)

[img]http://i2.minus.com/i1Y5ZJ7AFDduv.png[/img]

Any professional certificates: I'm not going to lie and post something that I don't have, I do graphics in free time and I don't need any professional certificates to be a good designer (that's my opinion).

Software's: SOLIDWORKS, Autocad, Autodesk Inventor, SolidEdge, Ptc Creo, Photoview 360, Disney Pixar Renderman, Gimp, Edrawings, Inkscape, Keyshot, Cura and Slic3r. The latter two are G code interpreters.

Field: 3D photorealistic modelling and graphic design.

Reason and purpose to why you should join: I specialise in something different from most, which opens doors to new possibilities such as creating tangible products right from initial concept to manufacture. There are not many 3D designers on HF of which I am one of the best I believe.

Any professional certificates: Bachelors degree in Engineering Design, 3rd level Cert in 3D parametric modelling with manufacture.

5 best pieces you have made: <https://hackforums.net/showthread.php?tid=4753383>

Side notes: Shoot me a message for more examples of my work.

I vouch both of these users. They're really great at GFX.

We're still in need of graphic designers in this sector! Please submit an application while we still have our doors open :)

J. Lewis - April 16, 2015, 12:42 pm

More designers are needed as +One said in sub-forum. If you deem yourself worthy of joining the GFX sector, apply now. :)

I'm aware, I just went through all the apps again, realized I had forgot about 1 or 2, will add a few members tomorrow.

Silent Sweat - April 21, 2015, 6:55 am

Age:19

Experience:40 days Web Development/Designing (fast learner)

Software's:Brackets

Field:Web Development

Reason and purpose to why you should join:I am a fast learner and I believe I have a keen eye in terms of design, although I'm not a graphics designer, web development still requires design.

Any professional certificates:

5 best pieces you have made:Only have 3 works of art as of now since I just started learning 40 days ago (click my sig to see my thread with my work)

Side notes:I will surely be learning graphics design as I move forward with my web development, that is for sure.

This recruitment is closed, as I'm not a leader for Fortune anymore nor is there a GFX section.

J. Lewis - April 21, 2015, 2:56 pm

Got kicked, no regrets though -> Recruiting designers -> Sector more dead than Saddam Hussein
