Thread: [Sales Tags v2](#)

Omniscient - March 31, 2015, 11:44 pm

So after listening to feedback from members I have decided to spend another day coding on this and I'm happy with the results.

<https://hackforums.net/salestag.php>

Good news: Sales Tags are now only \$6 OMC.

Bad news: They expire after ONE WEEK.

Good news: All those who already purchased Sales Tags will get one full month (till May 1) tag usage. If by chance you prefer a refund I'll be happy to grant it. Just send me a PM and I'll remove your tag and send back to you the exact amount of OMC you paid. Please be aware the refund offer is only good for 48 hours. After that it's just too bad.

While it was a pain in the butt to recode this it was also beneficial in the way that I'll be using similar code for sticky thread purchase automation. Also OMC will have more likely a continued purchase reason.

I feel \$6 OMC is a pretty good deal even if it's just one week but I will likely adjust it according to needs. The ONE WEEK however I do not plan on negotiating or changing.

Thanks everyone for your patience on the feature. Doing my best to get more done in a timely manner.

Any questions? I'm sure the comments are coming too.

iDuL - March 31, 2015, 11:45 pm

Good to see you're still working on this Omni

Omniscient - March 31, 2015, 11:46 pm

Even better if I'm indeed done coding it. :)

Magicmann - March 31, 2015, 11:47 pm

I definitely like the change to a renewal based system. Means people have to buy more Omnicoin!

Tonight - March 31, 2015, 11:49 pm

I like this idea a lot better, much easier for everyone and no abuse. :)

Dex? - March 31, 2015, 11:49 pm

do you plan on accepting other currencies in the future or is this going to be an omc exclusive ?

city0 - March 31, 2015, 11:50 pm

I saw this implementation the other day and thought it was pretty neat, as others have said already its always good to see that you are still trying to improve on it.

(Mar 31, 2015 11:49 PM)Dex? Wrote: [\[CITE\]](#) do you plan on accepting other currencies in the future or is this going to be an omc exclusive ?

I'm guessing from his recent statements that it will be OMC only.

Omniscient - March 31, 2015, 11:50 pm

I guess I should mention that thread title changing issues were completely removed. Tag will remain until the expired time has passed.

Grin - March 31, 2015, 11:51 pm

Although I don't use the marketplace as much I might enjoy at my convenience, I see this to be a step of a unique and luxurious feature that belongs on HackForums.

(Mar 31, 2015 11:49 PM)Dex? Wrote: [\[CITE\]](#) do you plan on accepting other currencies in the future or is this going to be an omc exclusive ?By him saying this would be another reason to buy omc I assume this will be an omc exclusive

Tonight - March 31, 2015, 11:52 pm

I know, but the weekly limit completely destroys the purpose of using the same thread repeatedly when the tag will just expire in seven days anyway.

Whoop whoop!

Cryptic™ - March 31, 2015, 11:52 pm

Few suggestions:

Remove the text that says the tags name, and just put the radio button beside the tag image it's self.

Since you have more than one tag that says the same thing, organize them and put them next to each other. Right now their all over the place. (example: Special_1 is on the first row, while Special_3 is somewhere near the middle of the page.)

Sunlight - March 31, 2015, 11:54 pm

I think this idea is a lot cleaner and works better. Makes a lot more sense too.

#Skyline - March 31, 2015, 11:56 pm

This looks great.

I do believe by arranging them by name or colour would be a better option.

But other then that, good job :)

Game Changer - April 1, 2015, 12:07 am

Some threads looks strange in premium section,although they bought tags like sale,Hot,special but they are still using characters like <<<,/////,,||| etc,after using tags no need to make thread unique?

630 - April 1, 2015, 12:34 am

I like that they expire after a week, won't clutter the forum. Not a fan of the tags myself, but it is what it is.

n0\$f3ratu\$ - April 1, 2015, 2:08 am

This feature should apply to all sales threads NOT only to the ones from marketplace, at least is how i see it.

Charger - April 1, 2015, 2:57 am

Two suggestions:

- 1: Remove the "_number" on each and give an actual.
- 2: Group types together like deal tags and sale tags.

Sharpbrood - April 1, 2015, 2:57 am

This is an amazing implementation. Is this for upgraded users only?

Kogan - April 1, 2015, 3:09 am

Price should be increased or it will make the forum look spammy because everyone will have a sales tag.

c x y k - April 1, 2015, 3:10 am

Looks a little more sexy imo if anybody incorporates it into a theme or some shizzle.

```
Code #tags { width: 100%; }
.salesicon {
  width: 20%;
  margin-left: 0;
  text-align: left;
}
input[name^="thread"] {
  width: 90%;
}
?
```

Cibor - April 1, 2015, 5:01 am

So many new features comming to HF recently, impressing.

Greatest - April 1, 2015, 5:33 am

Nice tags, I even have my own cheeky little tag in there ?

xVulnerable - April 1, 2015, 5:35 am

Well obviously \$12 for lifetime would have been better for us but meh. Will stickies be able to be purchased via only OMC when you add an automatic system?

Majestic12 - April 1, 2015, 5:59 am

I think an Option to purchase Multiple weeks would be good, as there are no limits or restrictions like with stickies.

tweety - April 1, 2015, 7:51 am

How will you prevent the sneaky bastards that try purchase stickies/sales tags for another member? I like the whole idea of automation but it does come with a few problems like this. Overall, great development, hope to see more changes in the near future.

Simple: If the thread id isn't linked to the viewing user - no tag/sticky for him.

WRX - April 1, 2015, 9:10 am

Omni quick question. Are you allowed to buy multiple weeks at a time?

Meaning: 4 weeks X \$6 = \$24 one time payment for a month?

Or do you have to renew every week?

MrOrang - April 1, 2015, 9:10 am

I sent you a pm regarding the people who already purchased a tag :p

Aceman - April 1, 2015, 10:04 am

I like the update and I think this will solve most of the problems that people had with the feature. One question though, will you ever allow people to purchase multiple weeks at a time if they were interested in doing so? I imagine this could easily be written into your code and you could even offer discounts for longer purchases (if you were interested in doing so).

Edit: Just realized a couple people already asked about this.

Z3r0D4y - April 1, 2015, 11:54 am

Good to see this, though I think \$6 OMC per week is kinda expensive (if you count the fees for exchanging with it).

NoodleBot™ - April 1, 2015, 11:58 am

Keep it like stickies. Sold in blocks of 7days, a week, one block at a time.

Omniscient - April 1, 2015, 11:59 am

Quote:Meaning: 4 weeks X \$6 = \$24 one time payment for a month?

Currently set for 1 week but I do believe I could make some adjustments to be multiple weeks.

I really need to code the next project. How it is now should be stable for the community needs.

Quote:Good to see this, though I think \$6 OMC per week is kinda expensive (if you count the fees for exchanging with it).

I almost did \$5 then I almost did \$8. I went with \$6. I'm fairly sure I will adjust it. Heck it might eventually be as cheap as \$3 if it doesn't get popular.

\$3 will really be better.

This will eventually generate more income.

\$ZEUS - April 1, 2015, 1:12 pm

I think \$6 is fine. If you're not willing to spend \$6 to promote your product, why are you selling a product? Part of it is advertising, if you can't advertise, don't sell a product.

I love this and think the price tag is fine, seems like Omni can never make you guys happy enough. Either complaining about the expiration date or price...

I think you should create an algorithm of some sorts to deduce the pricing. You could take into account current amount of tags active, target thread forum, amount of threads user has with tags, average price, account statistics, bulk purchasing, etc.

Gary - April 1, 2015, 3:58 pm

This is better than having it up for perm. It would be annoying seeing those tags on every single thread including the dead ones.

Question: Are you going to limit the amount of tags per section?

kamika\$e - April 1, 2015, 4:34 pm

Is there anyway in the future to add a custom picture as your sales tag you'd like to add to your thread? Maybe that'd cost a bit extra..and have to fit a certain dimension.

Visualize - April 1, 2015, 6:57 pm

I like this change because you will probably see sales tags a lot less and the whole thread title change thing was removed. Thanks Omni for the changes!

Gustav. - April 1, 2015, 7:00 pm

Cringe every time I see them, their looks needs to be changed a bit.

?Saadi - April 1, 2015, 7:10 pm

There should be packages, I'd say. Like 1 week, 2 weeks, 1 month, 2 months etc.

Cyber - April 1, 2015, 7:12 pm

Looks very nice! I don't really have a shop atm but if I do it would be nice to purchase one =]

Could also add a 3month option for extra omc like \$13 or so

Soulmate - April 1, 2015, 7:44 pm

Great April Fools joke Omni man you're funny man :^)

Berserk - April 1, 2015, 8:38 pm

I hope the 1 week thing is a April 1 joke, if it's not then so be it, either way i think it's a great addition to the Marketplace incase you have missed the chance to aquire a sticky you could buy this and still stand out from the rest.

Omniscient - April 1, 2015, 10:05 pm

Quote:Question: Are you going to limit the amount of tags per section?

I do not plan to limit these. I'll alter the price according to demand to prevent every thread from having them.

Quote:Is there anyway in the future to add a custom picture as your sales tag you'd like to add to your thread? Maybe that'd cost a bit extra..and have to fit a certain dimension.

No, I will not be allowing users to upload their own tags. I might add more tags to the official list as times goes on.

Quote:There should be packages, I'd say. Like 1 week, 2 weeks, 1 month, 2 months etc.

Currently set for 1 week periods. I may decide to add options for multiple weeks in the future but for simplicity it's set currently for 1 week buy at \$6.

I need to keep features as simple as possible. I'm not about overly complicating my website beyond it's already vast amount of complications. My goal is that every new feature works as-is and is as idiot-proof as possible. I know members will always have suggestions and their own ideas on how things should be done but I have to have my own standards for the site.

o dam 1week? was hoping atleast a month was gonna purchase that

well then - April 1, 2015, 11:28 pm

Is it okay if we sell sales tags? I know not many can get OMC, and the page allows us to input any forum thread, so it would give me limitless options to let customers purchase sales tags at a small fee.

Diabolic - April 2, 2015, 12:07 am

Looking great and at a fair price also.

Suspense - April 3, 2015, 2:17 am

I think this is a really great idea, and the tags look nice and clean. Good price also. \$6 isn't bad price people can work around.

Suggestion/Feedback for renewals:

I do feel that the 1 week is good length, although it may be an annoyance for people wanting to have a sales tag for 1 month+ who have to keep updating it every 7 days. Maybe have a choice for how long you purchase it for?

Such as: 1 week Sales-tag \$6, 1 month Sales-tag \$24

Or even possibly provide a discount for 1 month purchases.

Regardless, I do think this is a fantastic idea for HF. You've done a really good job on implementing this.

Optimized - April 3, 2015, 2:22 am

I like the concept of the tags, and I feel the price, and timing is pretty well done, however don't they look a bit out of line? For a long time on hack forums now you've kept it clean with minimal colors, but now I feel the tags are making the site a big rainbow. Of course, your site your choice, but I feel it kind of makes the site feel a bit colorful.

I also agree with this, although as Omni said,

"They're meant to stand out and be noticeable"

I personally would like something similar to the Writ3r's userbar but cleaner to use as the tags, although then they'd most likely blend in.

·Evolved· - April 3, 2015, 11:43 am

I'm not going to lie, I'm not a big fan of these. They are hard on the eyes and don't seem like they are integrated well. Either way, I just set up my adblocker to block that whole image directory so I won't have to deal with it.

Omniscient - April 3, 2015, 1:45 pm

I'm likely going to add a discounted 1 month purchase option but I feel it's appropriate to wait till the original purchasers have expired. I do want to make sure this feature works as I expect it to.

Visually I know these aren't 100% blending. Over time I hope to work that better. Given that the tags expire that actually makes it easier for me to remove and replace icons as we go forward.

The feature will take some time to get used to.

You should just enable it for all threads, in my opinion.

More tags may be required to address threads that are not particularly for selling a product or service.

If it was enabled outside, whole forum would look like a joke though. While it has its pros it also has a lot of cons, it just out wages the purpose. Hence the reason its for Marketplace only. If I'm getting this whole idea correctly, Omni implemented sales tags for people who "cant" get the sticky,

because if you manage to get sticky in high-traffic sections you dont really need tag, your thread is already "important" by just being stickied though. Many people got them for stickied threads too, but imo half if not more wont extend it since there's no real purpose except for non-sticky threads. Not to mention OMC is circulating which is a good thing for its value.

I like this much better. Hopefully the new coding will work flawlessly.

Omniscient - April 6, 2015, 1:53 pm

If I add other payment options they will be higher priced. I'm thinking double in price actually and even restricting it to l33t/ub3r only if paid with PP. But it's not going to be anytime soon. I'm still working on a few things and the plugin right now appears to be working perfectly.

I'm also speaking to iHydra which made one of the sets. He is working on reducing their size to a new standard of 100x24. The current ones are a bit too tall and a slimmer tag should look a lot nicer. Hopefully have those in place within 48 hours.

And if 100x24 is the new norm and it settles in then I may look into adding more image options. After that I may consider opening up the option outside the Marketplace depending on a few factors.

Omniscient - April 8, 2015, 11:49 pm

All sales tags are now 100x24. Should make them easier to view and load.
