This has been posted a lot of times :) i think it's more suitable for Freebies section as there is no tutorial.. Sometimes this needs proxy Ip because on some countries they ask for further confirmation(signature of document or ID card)

For outside us peoples this is not working as they will ask you for your id card so using proxy is useless

Update

I just got mine :P

Use a proxy and a fake generator information for name,street ect(it must match with the ip address details) so for example if your proxy is in chicago you have to put in the registration details smth
Country: chicago ,the zip code for chicago,a fake number with chicago prefix)

Damasu - May 30, 2015, 2:29 pm

Well, idk what to tell you, I got phantomarts,org from it for free... sooo yeah

AnonymousPlayer - May 30, 2015, 3:58 pm

Does this work? Yes.

Did I use a proxy? No.

Proof:

Thankyou OP. I vouch for this post. ?

Nice trick and suggest but it was posted before too.

Apdooo - May 31, 2015, 1:27 am

Setup fee 12.00..what can I do now?

uwot - May 31, 2015, 2:31 am

I got a healthy setup fee which costs more than a domain from another registrar.

LosPollosHermanos - *May 31, 2015, 4:41 am*

Can someone help me out with finding one of those fake information generators?

EDIT: Think i found some sort of generator however it still keeps saying the address can't be optional even though i fill it in. Any help?
