Thread: [watch screen capture in listview \[src\] vb.net](#)

xVipX - April 1, 2015, 1:06 pm

hey today i have coding simple function to add image gif or something in imaglist then in listview imageindx then controle the size of image with listview.coloumns(0).width this is image gif show y how it work
[img]http://up.dev-point.com/uploads1/3186b2f295f21.gif[/img]

source:

coder <--- me

<http://www.mediafire.com/download/73f31pq60hwwus4/screen+by+xvipx.rar>

good luck :)

evilivid - April 1, 2015, 2:29 pm

Code Dim b As New ListViewItem

'coded by xvipx

Private Sub Form1_Load(sender As Object, e As EventArgs) Handles MyBase.Load
l1.ContextMenuStrip = ContextMenuStrip1

End Sub

Private Sub Timer1_Tick(sender As Object, e As EventArgs) Handles Timer1.Tick

Try

Dim bounds As Rectangle

Dim screenshot As System.Drawing.Bitmap

Dim graph As Graphics

bounds = Screen.PrimaryScreen.Bounds

screenshot = New System.Drawing.Bitmap(bounds.Width, bounds.Height,

System.Drawing.Imaging.PixelFormat.Format32bppArgb)

graph = Graphics.FromImage(screenshot)

graph.CopyFromScreen(bounds.X, bounds.Y, 0, 0, bounds.Size,

CopyPixelOperation.SourceCopy)

PictureBox1.Image = screenshot

l1.SmallImageList = img

l1.LargeImageList = img

img.Images.Clear()

Dim size As New Size(l1.Columns(0).Width, l1.Columns(0).Width)

' Dim x As New Size(HScrollBar1.Value, HScrollBar1.Value) ' controle size by hscrollba

' img.ImageSize = x

img.ImageSize = size

img.Images.Add(PictureBox1.Image)

PictureBox1.Hide()

Catch ex As Exception

End Try

End Sub

Private Sub JffffToolStripMenuItem_Click(sender As Object, e As EventArgs) Handles
JffffToolStripMenuItem.Click

Timer1.Start()

b.SubItems.Add("xvipx")

b.ImageIndex = 0

l1.Items.Add(b)

End Sub

Much easier than downloading your entire project files.

why listview

Me.Controls.Add(New PictureBox With {.Dock = DockStyle.Fill, .SizeMode =
PictureBoxSizeMode.StretchImage, .Image = Screen})

Me.Controls.Add(New PictureBox With {.Dock = DockStyle.Fill, .SizeMode =
PictureBoxSizeMode.StretchImage, .Image = Screen})yes i now :p

i put this to show for all how to add image gif ... in listview & controle the size
of imagelist
