Nodody's is interested for this pack? There's no survey body ! :p

I think probably because you didn't explain the pack.

I myself wouldn't download it mostly because I have no idea what's in the packs.

And a lot of them could just have repeat stuff.

Might be useless.

But then again could be good.

Thank you OP! I unblocked the website since I don't think there is any malicious about this website; downloaded the file.

Will check the links later, but I guess they'll be great.
