Thread: [Meow's feedback thread \(2012-2015\)](#)

Meow - April 1, 2015, 7:09 pm

Just another feedback thread, hopefully you will enjoy my view of HackForums.

Note:

Spoiler ([Click to View](#)) It's 3 am now and I'm trying this so excuse any grammar mistakes and stuff like that.

I joined HF back in 2012 when I was 12-13 something like that in hope to learn how to hack Minecraft accounts (???) but to this day I didn't "learn" it.
Mainly stayed here because of community.

Sections

Lounge

Probably the most active section on HF, if you want to have a good laugh just go to lounge, never fails to amaze me.

Innuendo

I've posted 1 or 2 threads there because I had some personal problems in the past, very friendly & helpful members browse that section and give VERY MATURE answers.

Music, videos & movies

If you are looking for a new movie or a song this is perfect place for you.

Giveaways

I rarely browse this section, mostly if I see something interesting that is give away or if I have to share something with community.

Beginner Hacking

Mostly new members browse/post in this section asking noob (not trying to be rude) questions like "how can I hack free gold in RS", "how do I hack free money on steam", "what is hacking", "what is rat" and so on, and I don't really blame them.

Website and Forum Hacking

I'm not any kind of 1337 h4x0r or anything like that but I like this section, very friendly members often doing contests (easy website hacking and stuff like that)

Hacking Tools and Programs

As before, not lizard squad hacker but you can find some good programs there for beginners and "experts".

White Hat Help

This section is filled with talented people who are always doing their best to help you solve a PC problem or clean a virus.

Used it couple times mainly for check-ups.

Runescape section

I don't play runescape but I'm sure it's fun game and people love to play it.

League of legends section

My home <3

I visit this section every day along and often help (or troll) members with their problems,rants and stuff like that.

Section is filled with funny & interesting people and you can never get bored in it and I made a lot of friends (and enemies im sure) there.

Minecraft section

I used to go there before but I don't really play minecraft anymore.

Not sure if Dan is this in that section but he is very helpful member and he often helps people with MC servers and shit.

Marketplace

I mostly browse marketplace if I need to buy something or just looking to see what are people selling nowadays.

I listed sections I usually browse the most,ones I don't I didn't list

Groups

Nightfall

No words,best group on HF

Brotherhood

Group has good leaders and potentian but it seems kinda dead (probably not,but that is just my opinion)

Fortune

-

Titans

Not sure what happened to that group,it was good back when Realizim & Hydra lead it but I was just randomly kicked without any explanations so..

Specialists

Bull is good leader and I also think this group has potentian,it's filled with smart & skilled people who are truly specialists in their field.

Null

Probably group I respect the most,not every idiot can be in Null.

Only true h4x0rs are in Null.

Polymath

I was never in polymath but I spoke couple times with Lani and he seems like a nice guy who can lead group.

AnimeFan

I don't watch anime therefore I will not say anything about this group.

I only listed groups I'm familiar with,I don't want to say anything about group if I don't know it
