Thread: [\(Tutorial\) Skype with no resolve for DDOS \(Proxy\)](#)

Speally - April 1, 2015, 7:11 pm

I guys, so first sorry for my bad english i'm french fgt.?

So now, you are tired you resolve to do and got ddos ??

I've solution for you.?

1.First you have to find a proxy, you can find a proxy on google for your city or on this websiote for US : <http://www.us-proxy.org> .

2. You need the IP and the port.?

3. Go on your skype, and click options, <https://i.imgur.com/kRp6Yi7.png>

4. Go to advanced : <https://i.imgur.com/71Mtf1U.png>

5. Go to the Connection tab : <https://i.imgur.com/4RjcCCY.png>

6. After paste your IP and Port Proxy : <https://i.imgur.com/neaE2K6.png>

7. Restart your skype.

It's not work in instant, you have to wait around 1 hours.

Test on skype resolver:
