Thread: [OMC-Rates Changes/Updates \(Last Updated on April 9\)](#)

Cryptic™ - April 3, 2015, 8:07 am

Post all your suggestions/ideas for <https://omc-rates.com> below and I will try to implement them if the idea seems like a good idea.

Change Log:

April 3, 2015:

<http://omc-rates.com/> v2.0

Screenshot of new update: Spoiler ([Click to View](#)) If you see anything other than that, press CTRL SHIFT R or give it a few minutes as the CDN has to update the css.

Decided to give it a complete overhaul, the main OMC Rates thread is [here](#).

Javascript and PHP was completely rewritten, it was 90+ lines before, got it down to less than 40.

Got rid of all the images, everything is pure code now.

Added DASH, DOGE, and LTC to the site as people as I see people using those coins in the market place, figured it would come in handy.

Had a lot of requests for an API so with the new backend design you can now pull queries from <http://omc-rates.com/rates.json>

It currently updates every 10 minutes, I can reduce the time if someone could tell me the max requests BTC-E and Bittrex allows before they ban the servers IP.

April 5,2015:

Added GBP as an option instead of USD, for european users. There is a dropdown list called "Currency" on the bottom right of the page that lets you pick between USD and GBP.

April 9,2015:

Added EUR as an option for european users. There is a dropdown list called "Currency" on the bottom right of the page that lets you pick between USD, GBP, and EUR.

GamerBoy1499 - April 3, 2015, 8:34 am

Nice decision to add API. Might use it.

I suggest something like a widget

Cryptic™ - April 3, 2015, 8:35 am

I suggest something like a widget

Could you tell me what you'd like to see in the widget?

FreeAnneFrank - April 3, 2015, 8:36 am

Thanks for this OP. Adding a API is a great decision will use it soon :D

Cryptic™ - April 3, 2015, 2:07 pm

If you guys want any other coins added let me know.

Happeh - April 4, 2015, 4:37 pm

Something to look at is more currencies other than USD. For example I'm GBP.

Love the site like always, Cryptic™. Remember when you first released it.

GamerBoy1499 - April 5, 2015, 4:59 am

(Apr 3, 2015 08:35 AM)Cryptic™ Wrote: [\[CITE\]](#) Could you tell me what you'd like to see in the widget?

A simple widget like BTCQuote.co or something which is dynamic like HitBTC's widget

I have implemented your suggestion. There is now a currency option near the bottom right of the page, that lets you pick between USD and GBP.

Looking good. Thanks for listening!

Aceman - April 5, 2015, 9:42 am

Cool, I very much like the changes Cryptic. ?

Makaveli. - April 5, 2015, 9:43 am

Thanks for adding in different currencies. Keep it up man.

?Plutus - April 5, 2015, 11:34 am

Looks good man keep up the HQ Work :D

Cryptic™ - April 9, 2015, 4:09 pm

Thanks for the feedback, anyone want any other features?

Dave Skylark - April 9, 2015, 5:41 pm

I think EUR would be more reasonable for european users as GBP is used in the UK only yet EUR is used in most european countries.

Cryptic™ - April 9, 2015, 6:46 pm

I have added it to the site. Thank you for your suggestion.

Cryptic™ - April 16, 2015, 9:24 pm

Anyone have any new suggestions/ideas?

Cryptic™ - April 26, 2015, 9:44 pm

Anyone have any new suggestions/ideas?

I'm thinking about creating a widget ppl can embed in their sites, but need some ideas for design and stuff.

Quiver - May 4, 2015, 4:05 pm

The site hasn't been working for the past couple of days. What's up?

Cryptic™ - May 4, 2015, 4:20 pm

Well if no one PM's me telling me it's down then I wont know it's down.

Looking at the logs it looks like Bittrex blacklisted the servers IP which is preventing it from getting the rates.

Which is odd considering it checks it every 10 minutes. I have to contact Bittrex now.

Quiver - May 4, 2015, 4:22 pm

Interesting. I didn't PM because I figured someone would have by now, that's why I posted here in case you were just doing some changes or something.

Cryptic™ - May 4, 2015, 7:47 pm

Site is now fixed. Turns out that one of Bittrex's server updates messed up their IPv6, they fixed it and now the site is good to go.

Cryptic™ - May 7, 2015, 8:30 pm

Site now supports SSL, you can use HTTPS provided by CF.

Got a request for that earlier today.

<https://omc-rates.com/>

<https://omc-rates.com/>

'cause the last thing we would want is someone snooping your connection and seeing how much OMC you have... ?

Cryptic™ - May 8, 2015, 4:48 am

(May 7, 2015 08:33 PM)Abraham Lincoln Wrote: [\[CITE\]](#) 'cause the last thing we would want is someone snooping your connection and seeing how much OMC you have... ?

I didn't see any point with it either, from a security perspective.

I only added it because SSL is a factor Google takes into account when ranking sites.

Cryptic™ - May 17, 2015, 7:48 am

Site is currently under DDOS attack, currently setting up replication using rSync & a round robin setup for redundancy.

Mr. WAVES - May 17, 2015, 4:32 pm

Simple and great website! I use it everyday.
Thanks!

severos - May 20, 2015, 1:24 pm

Something wrong with website?? it's not showing any values for me.

Cryptic™ - May 20, 2015, 3:27 pm

(May 20, 2015 01:24 PM)severos Wrote: [\[CITE\]](#) Something wrong with website?? it's not showing any values for me.

It's working fine, try pressing CTRL SHIFT R or try incognito mode. Might be your cache/javascript.

Cryptic™ - July 15, 2015, 10:24 pm

Made a few changes to the webserver. Site still running strong.

wander is a multi dwc - July 27, 2015, 2:03 am

Just wanted to say thanks for the API you have there. Can you retrieve data from preev.com? Also, who coded the site? Looks sleek.

Esme - July 27, 2015, 2:38 am

Awesome. Easy way to keep track of exactly how much OMC is required to purchase 3p1c, thanks.

Corey Taylor - July 28, 2015, 6:30 pm

i might be the only fag but CAD please? Canadian added to the list of currencies?

Cryptic™ - July 28, 2015, 7:50 pm

(Jul 28, 2015 06:30 PM)Corey Taylor Wrote: [\[CITE\]](#) i might be the only fag but CAD please?
Canadian added to the list of currencies?

USD / EUR / GBP are the 3 main currencies used on exchange sites.

If I add CAD I'll have to add another conversion process, I'll see what I can do.

Cryptic™ - November 6, 2015, 12:57 pm

Made some server side changes, there was about 5 minutes of downtime due to a few reboots / os updates.

Who Soup - November 7, 2015, 10:34 am

the only thing that I'd like to see changed is being able to calculate OMC through other fields. for example if I put \$0.10 in the "USD" section it will calculate the OMC value.

Cryptic™ - November 7, 2015, 10:45 am

It does do that. ??
