How to insert an image to your thread's title?

i have seen some threads that have images on their title

anyone knows how this is done?

thank you

Can you show an example?

As far as I know, this simply isn't possible.

I never seen it in the title. There's little space in the title, I don't think an image would be useful there.

Sales tag v2

Check the rules and announcements thread, it's stickied there
