Thread: [Trading MY new autopilot method, for YOUR method](#)

niro - April 3, 2015, 7:48 am

So I have seen people are making money with sellers and a lot of it! If someone can help me set mine up I could potentially help you! I found a auto pilot method! I made a post about it yesterday and I've decided to trade it for other methods or traffic sources! I've made 30\$ in 2 days without doing anything (without sending links to anyone etc) anyways if someone can help me get traffic to my sellurs link, also i MAY have an idea on how to get a lot of traffic... Pm me serious people only... Please provide your sales on sellurs and we can talk ?
Thank you!

Also I've asked acouple people on what they thought of the method and they have said they haven't seen it and it's really smart ?

Like I said again! Let me know in a PM or a reply to this! THIS IS OPEN TO ALL OFFERS YOU HAVE

Good luck with sales you nasty whores ;) ?

30\$ in 2 days isn't a lot honestly if we compare it to other autopilot method.

You even make more money manually lol. If you can find a method that bring the same income then trading should be de solution.

Good luck ?

Sora, you fucker.

15\$ a day for autopilot is.. well, not great, but good.
If you then yourself make money, it's pretty good for a teen. :p

As I said, 15\$ a day doing nothing is not great but you know.. $15 \times 7 = 105\$$.

Still it's money yeah :D.

Good luck trading OP.

Me fucker? Skype me again see if I'll respond :D.

It's almost as much as my monthly wage on ~720\$.. But if it's all auto-pilot, isn't it just setting up another one after the first and rinse repeat for like 10x15\$/daily?

I can give you another method for this type of E-whoring for yours, Mine is very rarely used! Cheers!

I have a really nice traffic method if you're at all interested in it. PM me, would need proof that you made the \$30 though.

Never said your method is useless. It's actually good lol. I would suggest you to find someone with good traffic and team up with him to make more money though :).
