Thread: [Unlimited BTC Faucet Method - 100% AUTO PILOT](#)

?Fetz? - April 3, 2015, 9:27 am

Method Proof:

Spoiler ([Click to View](#))

[img]http://img.prntscr.com/img?url=https://i.imgur.com/P1MObp2.png[/img]

I started with 0.000000 BTC and after 24 hours have .0009 BTC. As you build up more and more BTC you get them faster and faster. The method is autopilot (you have to keep a browser window open). It uses a PrimeDice algorithm that normally wins you BTC super fast. PrimeDice starts you off with BTC, no deposit required.

Tired of replying to PMs. Please go to: <http://pastebin.com/YpJg2xfB> for method.

3. No referral links.

Regarding your binbox link.

It's like adfly (which is a ref link) where you enter a captcha and the person who created the link gets a little incentive while the other gets to the shortened link, in this case your method.

I went ahead and changed it to a pastebin link. Is this ok?

Your numbers are wrong then, you should contact him so he can see if your numbers are wrong.

Gary - April 3, 2015, 1:43 pm

I suggest putting your win on return thing to 1%

It works perfectly fine for me, but it just might be me idk

madaZ - April 3, 2015, 1:53 pm

The guy sent the method to me, although i haven't tested it yet, but hes cool ;]

League Of Smurfs - April 3, 2015, 2:30 pm

Thanks for the method i'll try it now!

Meow - April 3, 2015, 3:00 pm

Was doing this for around 10 minutes and on 1 bet I lost everything. This doesn't work on the long run. ?

H.K.S - April 3, 2015, 5:22 pm

Guys, it does work on the long run, but more calculations are needed. I think i managed to get a good setup that will work in the long run. Probably gonna take 3 days to double what i puted in, with no risk. If the thread is alive by then, i will update...

this worked for me! lol thanks man!

Senpai Riven - April 5, 2015, 7:37 pm

Currently using this, seems to be working from what i've witnessed (although this is only like 5 mins worth)

Started with 0.00000200 from the faucet after like 5 mins i'm at this:

I'll add a 24hr proggy when I hit that point (if I hit it)
