Thread: [Free phone verification. \(Voice and text\)](#)

JDCL - April 3, 2015, 10:39 am

Hello everybody. Do you need to pass a phone verification but don't have a phone? No problem. I can help you. Please do the following.

Code 1: Post here or PM me for my phone number. (You can directly pm me, you dont need to post)

2: Wait to receive a pm that contains the phone number.

3: Input the phone number into the verification of whatever site (like gmail, yahoo, hotmail, youtube, etc..)

4: I will receive the verification code and should send it to you within 2-5 minutes.

*Please note that i will only be doing this for about a week. Also, i am usually on from 11:00 AM - 11:30 PM Central time.

Number of confirmations so far: 8

I am currently: Online!

Or you could get a free phone number from <http://www.k7.net/>, Would have thought everybody new about that site already?

Lots of providers blacklist companies like that and also, there are things like free eats that can only be signed up on once per number. You should remove your post.

This also eliminates the hassle of signing up to lots of things.
