Thread: [\[Skype\] Beginner Hacking Studying Group](#)

Th3PonyWizard - April 3, 2015, 4:01 pm

This has been suggested a lot. Anyway, with direct relation to my service:

Now I'm making a skype group chat that will be focused on studying, helping one another, as such.

THIS GROUP DOES SHIT. WE LEARN SHIT. WE HAVE PROJECTS, WE HAVE RULES, WE HAVE GOALS AND DEDICATED FUCKS.

do NOT join unless you're willing to waste 6-7 hours a week either reading or learning how to read.

Chat Ethics:

The flow of the chat will be Grey-Hat, with the exception of no skidism. No discussion of: Ratting, Phishing, Cracking, Booting, Doxing, Spreading, Social Engineering, eWhoring, Crypting and such. This is a studying group, not a regular group.

Nothing that breaks HF law will be discussed there.

I will be administrating the chat as well as making group lessons and explaining things everybody wants to know. I will have several of [#Elusive](#) members supporting everybody as well. They're the best around.

How to get in:

PM me your Skype username OR post it here and I'll add you.

Mi2414 - April 3, 2015, 4:04 pm

Sending a PM, hope I get added... :) Thank you OP!
