No problem!

I'm still working hard on improving the pool and I've added 2 new stratum servers in case of downtime.

Jokeh - April 4, 2015, 3:39 pm

Vouching for this, been mining on it on and off

e?erg1zer - April 4, 2015, 3:44 pm

I'm happy to make the switch, however I am currently out of town and will do so when I get home.

Durham - April 4, 2015, 3:55 pm

Vouch for crystal! He helped me set my mining up! Thanks ?

Ooze - April 4, 2015, 4:06 pm

Would love to join but I have no idea how to start mining omnicoin. Thanks for this though!

its pretty simple, if you regist on the site you can see a tutorial there :)

Pinhead Larry - April 4, 2015, 10:25 pm

Vouch for crystal, got me started on mine

Mix - April 4, 2015, 11:19 pm

I May test this Out Alittle But I Need to fin my new miner

Alright, good to know I have new miners coming in.

Btw, I'm working on getting another stratum server out as a failover server.

?Plutus - April 5, 2015, 5:14 am

Glad to see a few people interested! Invested in a couple stratum servers and we will continue to do so (:

Muddaland - April 6, 2015, 12:16 am

The pool has been running great and we have already mined plenty of blocks.

Payouts are also running smoothly.

Muddaland - April 7, 2015, 4:27 am

I'm glad to see that I've been getting more miners lately.

The pool is running without issues and we're waiting for more!

For EU, I have one in France and the main one is in Amsterdam.

If you want to mine on the France server, you will have to PM me.

Muddaland - April 9, 2015, 10:36 pm

The pool is still up and running!

We're open to new miners, and no fees at all!

Gt403cyl - April 10, 2015, 6:54 am

I'm already mining there, so far so good, but them blocks are hiding real good, lol.

Muddaland - April 10, 2015, 1:48 pm

It's cause of other people burst mining.

Just give it some time.

Gt403cyl - April 10, 2015, 7:37 pm

yeah I know, it sucks for us little guys who go slow and steady...

?Plutus - April 10, 2015, 8:24 pm

I might purchase a few new worldwide servers for this next week if it stays active with miners

MusleHF - April 10, 2015, 11:14 pm

Looks very nice, i will start mining here so :)
Keep it up

?Plutus - April 17, 2015, 2:27 pm

Thanks for the kind words guys really appreciate it :P

Coco_Cubana - April 17, 2015, 2:50 pm

Hey whose in seattle? and where at?

Seattle is in the United States.

You can use Google Maps to see exactly where it is in the US.
