Dexter - April 4, 2015, 12:37 am

I just finished the second to last episode of the TV-series [Burn Notice](#). I change the episode to the last one and they show this little image of the episode, which spoiled the episode for me.

This is not the first fucking time they do this. Because of this, I am considering to start piracy again.

I have heard from a lot of friends that they have done this multiple times on Arrow. Some people say it's the first 5 minutes they take the preview from, so it's not a problem, but that is not true. I have had previews that has been the last 5 minutes.

Great idea for a Chrome extension - Remove all preview spoilers and maybe even episode description. And a potential name: FuckFlix

Any thoughts?

I keep getting this error when I try to post this thread:

EDIT:

? ? Just found an extension for this son of a bitch feature. ? ?

See how helpful I am? By posting on this thread, I basically handed the solution over.

What games do you play, and how often do you play them :

I play a variety of games, some of the games that I have been playing recently are:

Borderlands the handsome collection

Destiny

Call of duty advanced warfare

Dying light

Grand theft auto

The last of us remastered

Battlefield 4

Monopoly plus

Do you have any competitive experience, if so what :

I have some competitive experience, I played Game battles when mw2 first came out in 2009-2010 with a clan of mine named "ChAoTiC" took a break from the competitive scene and recently did some Gbs in Black ops 2.

How much time can you dedicate to gaming nights and whatever might be required of you on a weekly basis :

If the game nights are at night I can definitely be apart of it, I can play mostly everyday, but I normally play at night at around 9 pm Pacific standard time. I usually play for 3-4 hours a day.

What do you expect of the Brotherhood PS4 Gaming Sector :

A group full of gamers that have the same passion as I do, that enjoy gaming as much as I do. This response made my night, oh my goodness.

Dexter, not only that, but actual series "Stay Tuned" thing. I mean ... The Walking Dead is TERRIBLE for this. "Next time on AMC's The Walking Dead ...". Character from the previous episode trapped with seemingly no way out? Better make sure you show then IN THE FUCKING PREVIEWS AT THE END OF THE EPISODE. Nothing pisses me off more than spoilers lol xD.

I get you bro, I fucking get you.

Walking dead is so bad at not spoiling that the pirates are actually removing the last minutes when they upload the episode, just because of those spoilers.
