Thread: [Is there a Crypter for the Solar botnet ?](#)

KommanderKakadu - April 4, 2015, 9:15 am

Hi everyone

I need a Crypter for the Solar Botnet.....

I knowe that the Solar botnet isn't up to date but i love to work with it.

If you know about a good Crypter for it pls post it on the thread.

I hope you can help me and have a nice Weekend !

I remember Razor Crypt v2 worked with it. However, there was a bug where it wouldn't infect XP users for some reason.

Cryptex Reborn will do fine

Stay away from Cyberseal though. Its not stable and legend has it the seller is selling the project soon

KommanderKakadu - April 4, 2015, 9:23 am

Ok i will check it out !

THX for the fast Tipp !!

I wouldnt listen to a ban evader who once wanted to extend his license to my crypter, the business is doing good and I have no reason to close the project, don't state facts you can't prove
