loooooool

No and, you have to apply for UB3R. You can't just get it.

They are all seperate costs. Ub3r you need approval for. You can buy epic, but it's basicallly an add-on for ub3r.

L33t can be purchased by anyone, to get ub3r you must be approved and have l33t. You must also pay the full price of \$25.
