Looking forward to this guide being completed.

Also, is it going to be free or will you charge for it?

EDIT: Oh, I missed the sentence that said it'd be free. ?

How much will you charge for this? Or will it be free? I'm really interested into this ebook.

Best of luck.

Misread the bottom part. Can't wait :D.

This looks very nice, looking forward to this ?

Jash - April 5, 2015, 7:03 pm

Fuckin A! Why did anyone never thought of this before!

You can actually host the articles/sections on github and USERS can OFFER CHANGES THROUGH GITHUB! They just EDIT the textfile and they propose the changes!

P.S. Please inform me on this fiasco if you ever pursue this, and please check how github works because GITHUB being a great VERSION control system for codes, we could take advantage of it as a great VERSION control for the articles. Coders can compare changes code by code, side by side on the screen - we can compare article changes too if we can!

Just my honest opinions, btw op if you may give honest opinions about my issue, I'd greatly value it. Nevertheless, lets have fun in our adventures.

Here's my thread btw:

zeroday - May 24, 2015, 4:13 pm

The only sections I enjoyed were:

2.1 Anti-Computer Forensics: Deindexation

2.1.1 - 2.1.12: Ego's Private Methods

2.2 Anti-Computer Forensics: Trail Obfuscation

2.2.1 Trail Obfuscation: Timestomp

2.2.2 Trail Obfuscation: Transmogify

2.2.3 Trail Obfuscation: Data Poisoning

It's not a bad read but make sure that if you're purchasing this that you don't already know half of the stuff.

Can someone tell me why this Doxing Bible is so timeless? I just got this, and it is truly worth at least a couple of years of knowledge compressed into a brick called The Doxing Bible by The Black Hand! If I could buy this again I would, but this is truly worth every bang for the buck, but there is so much more worth in it! I really thank you for this, I kind of was looking forward to it after reading the marketplace announcement, and coming from someone who has had quite aobve the intermediary skills, the information still shocks me. Looking forward to your other future releases, thanks so much :)

I even once asked a question in the forensics help desk to a group, and even they couldn't answer the question:
