Thread: [Most Common Password's](#)

Ya3goob - April 5, 2015, 6:30 am

Hello Guys,

I was thinking about brute forcing some accounts ?
So I thought .. common passwords is good to use ?
I searched and found the most used passwords (10,000) ?

To Download : <http://www.megafileupload.com/Teh/commonpass.txt>

Thanks ?

Headdy - April 5, 2015, 6:34 am

[Google](#)

Thank you OP but this list is literally everywhere.?

novazze - April 5, 2015, 7:09 am

10 000 is too much.You should use 30 most common passwords,there is a list on internet

You only use a small password list with a large username list, Imo it better to use a smaller username list and a larger password list.

Lol 10,000/81.07 KB common password txt? Too many man.

Common should be maybe 300. that could even be pushing it.

jcharelli - April 5, 2015, 9:55 am

thanks for this thread, I use that 10,000 common password list and it takes forever. I will look for that 30 common password list

Ya3goob - April 5, 2015, 10:23 am

If anyone have smaller better common passwords please PM me :)

Ya3goob - April 7, 2015, 9:06 am

Found the most 500pass and top 20 pass :)

Raz3r - April 7, 2015, 12:34 pm

You should use this list of common pw's instead of a 10k list.

Code Password
password
pass123
Pass123
qwerty
qwerty123
1234567890
Qwerty
Qwert123
ihatepasswords
IHatePasswords
IHatePassWords
PasswordQwert
