Thread: [Pakku Silent Miner \[Source\]](#)

Mnikkilla - April 5, 2015, 2:48 pm

Hello I am selling my Miner source, it is very stable it has a process, custom process killer and many other features which can be seen on my sales thread, the reason I am selling it is because I have not got the time to advertise and manage the sales, I am letting it go for \$50.

This is the sales thread: <https://hackforums.net/showthread.php?tid=4571746>

pm me if you would like to purchase

I'm selling it for so cheap since I don't have the time to market it or buy a thread design, you will get the whole source when you purchase, the miner is also very very good and was made by a very professional coder.
