Thread: [What Do We Need?](#)

Legion. - April 5, 2015, 8:29 pm

I have a free Linux VPS, and I want to do something with it for Omnicoin. And since Omni is offering those free subdomains, now is the perfect time. I'm no great coder, so I'd need someone to help with that. What do we need for OMC to succeed?

Abraham Lincoln - April 5, 2015, 8:36 pm

What OMC needs right now is either new projects or more powerful miners.

You could do a giveaway of it for people as long as they use it for an OMC project.

That's a good idea, I will work on it.

What ever happened to the plugin that would display everyone's OMC balance on their profile? I thought that could have helped somewhat.

Omni is still working on it. It will be coming at some point.

?Plutus - April 6, 2015, 6:10 am

We need more people using / accepting OMC
& as everyone has said we need something faster than bittrex

Aceman - April 6, 2015, 8:52 am

Faster than bittrex, what do you mean by that? If you mean the fact that it takes 6 confirmations before you can use the OMC then that's no big deal and is typical with any exchange, it only takes about 18 minutes normally anyways.

Maybe an OMC auction site? Ebay for OMC?

Cameron - April 6, 2015, 3:39 pm

(Apr 6, 2015 09:15 AM)Legion. Wrote: [\[CITE\]](#) Maybe an OMC auction site? Ebay for OMC? There's the OMC exclusives section. I don't see an auction site working, members can just post in the Member Auctions section and have OMC as the only payment method.

Aah okay, hopefully that's near the top of his to do list.

Well, maybe... I don't know what would help OMC then...

GamerBoy1499 - April 7, 2015, 3:30 am

Maybe we can create a bulletproof exchange for OMC to many popular currencies such as BTC,litecoins, dogecoin, etc.

Legion. - April 7, 2015, 10:21 am

I might create an instant exchange. That would be really cool.

The only thing I can see helping OMC right now is to create a necessity for it. Omni is doing a good job of this by bringing in OMC exclusives such as the sales tags, creates a need to have OMC, in turn making people want to use it.

I tried making a product that was strictly purchasable with OMC, but as a seller it isn't wise to do so as it minimizes sales quite a lot. I use OMC as a payment OPTION but never as the sole payment method.

markeloff - April 8, 2015, 7:25 pm

An instant exchange would be awesome, something like shapeshift.io.

Legion. - April 8, 2015, 9:08 pm

Yeah, made a thread asking for help on that.

Sniper - April 14, 2015, 12:44 pm

Not sure about the rules and regulations on this... But an omc lottery would be cool, buy your ticket with omc and win omc. Shame that you probably can't trust anyone to run this without taking the piss.

Legion. - April 14, 2015, 8:49 pm

That would be cool. OMC lottery... hmm. Anyone know how to code that?

Aceman - April 15, 2015, 8:26 am

Quote:Gambling

We don't allow the site to be used for gambling which entails on-site lotteries, pools, or drawings.

Discussion of gambling itself is allowed.

Considering it would be off-site, but advertised on-site, would it even be allowed?

Abraham Lincoln - April 15, 2015, 8:55 am

Yes, it would be. You can talk about it on HF, you just can't host it on HF.

You could always make it so that people have the option to pick say 3-5 numbers, and then the system generates random ones. Whoever has the winning numbers wins the lottery.

Or you could make a system that each time somebody buys a ticket, the ticket ID is their number, and if their number is picked at random, they win the lottery.

I could code both of these suggestions.

Doctor Blue - April 15, 2015, 3:38 pm

Yes, the difficult part is proving that you didn't pick the lottery winner yourself (Also known as making it provably fair). You could use the blockchain for deciding on the number(s) to pick.

Oh cool. Could you add me on Skype at justin.zheng@gmail.com ?

XMPP works too.

Not really, actually. It's easy enough to just give users a salted hash of the winning number, and provide proof once someone wins.

H.K.S - April 16, 2015, 11:55 am

Imo, i think we should reach out to stuff that can get peoples atention. One thing i think it would be great is working with a game that has Micro-transactions. Basically, you can buy in-game money with Omnicoins. A give away would be nice, but we need a place where to spend the omnicoins. One thing, i guess we could promote the usage of omnicoins as a payment method here on HF. Like, if someone is selling Cs Go items, and accepts Omnicoins, we could give him a free sales tag or something. An instant exchange would be amazing, but im aware that its not easy...
