The manga is kind of getting slow for me.

I'm taking a break from reading it so I can read it in one go.

This. Lol. I'm guessing this anime cuts in the mid way in the manga unless theres 24 eps.

A good first episode.

I generally dislike harems but this one seems good as the character didn't fall for the guy in one episode.

Let's hope this goes well & doesn't become a waste of time.

The voice actor of this guy is the same as Araragi Koyomi which is quite funny.

I like it so far, was a decent second episode.

Ah so this finally got its anime adaptation. I'll check it out today after work.

Horrible art and animation for 2015, did they save up for like 10 years to make SAO?

Really slow pacing (only 9 chapters have been covered in these 5 episodes). I'm guessing this will be 24 or more episodes by how slow they're going.

Thanks A1. I get source material is usually better than the adaption, but this is just... Probably dropping after next episode.

I say this anime has a good story but i think their budget is low.

I rate this anime 6/10
