Thread: [Warning do not deal with UID=1936053](#)

BotMarket - April 6, 2015, 3:10 pm

So in a nut shell this kid buys a bot off me. His first PM was in all CAPS raging about im a scammer because he didn't get his download link.

His Profile Link <https://hackforums.net/member.php?action=profile&uid=1936053>

I told him the link is sent to his PP email.

He calmed down for about 2 mins then went back to raging, about the bot does not work. I asked him to send me some of his proxies so i could test them. (none were working)

I then asked him to add me on skype so its easier to talk. Once on skype i explained to him how to get working proxies and test them.

He seemed happy and the chat ended.

I wake up today to find he made a scam report on me. So i asked him to send me his PP email so i could refund him his \$5.

He refused to.

The thread was closed by a mod idk why....

So he makes a new one.

I asked him again to send me his PP email. But he sends me a different PP email and tells me to send the \$5 to that email.

Now anyone smarter than a 12 year old could see now he is trying to scam me.

I just want to warn everyone about this kid. I highly suggest you do not sell or do any deals with him. From his poor grammar i think he is from a foreign country.

Clearly you didn't read the OP as i included your fake scam report into it. But this all makes sense now your clearly friends with Socialmediasupplier who now changed his name to X Adr3nal1n so he could attempt to hide from all his scam report.

Please view both of these members rep.

Thanks just wanted to warn everyone about you 2.
