Thread: [I'm leaving.](#)

Tahh - April 6, 2015, 4:45 pm

I can't handle the fucking stupid ass shit I am getting into, and even if it's not my fault I somehow get involved. I am gonna miss HF and in the internet. I honestly don't know what I am gonna do. I will probably start being a normal teenager. I am gonna die in the real world.

Shoutouts to my squad(in no particular order):

[?Pozdrav:](#)

This Croatian bastard has gotten me through a lot of stuff and we will honestly meet one day. You are one of the greatest I have ever meant online. I will always remember you.

[MaNiggaJon:](#)

I have no idea what I did. I can't ever thank you enough for all that you have taught me. I have had some of the best times with you Jon.

[Gr?ed:](#)

I don't even know ma nigga. I can't believe I am gonna have to leave you and all your BTC, mainly you. I hope you understand and thanks for showing me your blue lips.

[Stee:](#)

We never really talked much, but I know how you love that booty. Without you I wouldn't have meant my whole squad.

[Nostril:](#)

Thanks for upgrading me ma nigga. You make me laugh lots okay. I hope you and herb have fun making prank calls.

[Autononymous:](#)

You ma nigga were the one that helped me out a lot. I thank you for all your support and wisdom. I hope you don't miss me too much even though I barely knew you.
