If anyone needs help with some text on body let me know I can do it for you, or give you some tips.

Pro-tip: opacity, and puppet warp is your friend.

please can you give a quick break down of tools to use and the order, i can figure out the rest from there.

Thank you kind sir

I wouldn't say that, opacity works very well; plus it's quick.

I've never been called out for it.

Or Use a Surface Pro 3 and just write the text on her. Profit? !?!??!

Lil Durk - April 7, 2015, 8:57 pm

don't have a surface pro though ;c would be neat though.
