Thread: [First manga I've ever bought arrived today :D](#)

Misaka - April 8, 2015, 12:07 pm

Bought Yotsuba&! vol. 1 last week and it arrived today :) It feels great to actually have a manga in your hands :D

Not sure that I'll buy much more in the future because I don't really have any place to put books besides in my desk, but I just had to get at least one volume of Yotsuba :P

Congrats :P, not sure what else to say lol.

well then - April 8, 2015, 12:17 pm

who buys anime anymore. I usually get them from totally legit 100% non profit websites for free. but i dont watch anime.

Welcome to the world of being an otaku, where you stay a virgin until 22 and then you awkwardly disappoint someone.

Srs though, good choice. I'm not at my parents place otherwise I'd take a picture of mine.

This is about manga, nothing wrong with supporting whatever manga/anime you enjoy. Gangster shit mate, you are one unique snowflake.

Nice! I hope you have fun reading it. I've ordered my first manga yesterday, should be due some time tomorrow or something. Hope you have fun with it though!

:P

If you ever decide to learn Japanese (it's actually quite a useful language to know nowadays), Yotsuba& is a good beginner-level manga since it has a lot of kana. I actually started learning Japanese just to be able to read some manga and light novels who no longer had active translators, but it's useful in many contexts outside of anime/manga, especially if you're interested in technology.

Congratulations on your new manga, you're now an official fucking weeaboo.
gross.

Peanut Butter - April 11, 2015, 12:46 pm

Nice, I have Yotsuba&! Vol. 2 and Watamote Vol. 1 arriving sometime within 2-5 weeks. I would've done faster shipping but money.
? raws are supreme
