Thread: [\[35\\$\]Get tons of items in CSGO \[VOUCHED\] 100% CSGO USERS SPREADING](#)

FreeAnneFrank - April 9, 2015, 6:40 am

PM me for buying with Paypal. We are offering a 30% discount so it's only 35\$ for a few days. Grab your copy now buds!?

As a lot of people asked me questions regarding my E-Book here is a simple Q&A:

Spoiler [\(Click to View\)](#)

Q: Is this Autopilot?

A: No this isn't auto pilot.

Q: Does this need effort to be put in?

A: Yes. You will have to put a little bit of effort into this. The end result will be worth it as you will get 100% CS:GO victims only and they all will have a decent inventory.

Q: Can I make my money back with this.

A: Yes, most users will get their money back by using this method for the first time.

Q: How can I get discount?

A: If you bought Steam File Stealer Extreme you can get a 30% discount. PM me for proof of your payment to SFSE and I will send you a link to buy it for 30% off.

Q: Is this method saturated?

A: No this method isn't saturated at all. This method was never seen before.

Q: Is this the Steam Greenlight/Workshop method?

A: No it isn't and it's not related to Greenlight/Workshop in any way.

Q: I have a question that isn't in the Q&A, who should I ask?

A: Just post your question on this thread, or PM me :)

Decent grammar and spelling, noticed a few mistakes but OP explained he's not a native speaker of English. Very easy to understand even with the few errors.

Method Originality:

Never really seen this type of method, its certainly not auto pilot and will take a bit of time. Looks certainly profitable especially the niche he's using.

Complexity:

There are only a few requirements which I think is quite good, most people who are playing csgo regularly will already have most of the requirements.

I think the complexity of the guide is very small as its pretty much explained well enough for someone who knows what they're in on.

Comments:

Originality and easy method (for those who know what they're doing). I'd recommend a good RAT or crypter too, but those are optional and not needed.

Vouch for OP, good guide here :)

The beauty of this method makes it easier to spread to users with bigger, more expensive inventories and multiple people at once.

I have never seen this method on any other forum or been preformed before, the ebook itself is a nice layout for the eye and has no visible spelling mistakes.

Thanks for letting me know your (from my opinion stupid) opinion. My method is high quality and even if it gets leaked still is worth \$50. Programs are getting sold for \$20 here on Hackforums, right. But most of them won't make the buyer his money back within doing the method/using the program. My method won't get saturated as I am selling limited copies only and I'm checking for it getting leaked daily on other forums.

It's taken some time to set up, but I'm very very confident in it. How do I bu-mp my sales thread?

You don't do so with LQP and you are not allowed to post/delete/bu-mp either. PDB is where you make a new reply in your thread, wait for another post, then delete your post since your thread was bu-mped. We take PDB seriously and you can be instantly rep fucked and your sales thread closed for doing so. If you want your thread bu-mped you should make a quality post that positively affects your sales thread or responds to a pertinent reply to another post. Posts like "I'm online now" are not acceptable.

Thanks for giving me this info, from now on I won't until there is a reason for posting. But I am sure none of us two did PDB?

Bought this today and the method looks awesome. I have not seen this before and the ebook is short but very detailed. You will have no problem executing it and earning your money back quickly! You do need a small investment but it is nothing compared to what you will earn! Huge vouch for 1312
